DEDICATION

In the estimation of the Class of 2003, there is no one more deserving of the honor of yearbook dedication than this individual. This person uses his talents to care for the GDA community each and every afternoon. Without him, the Governors could simply not exist. He uses his gifts to fix and tape our every ache and sprain. He knows each of us by name and ailment. His friendly voice can be heard over the radio and as he speeds away on a golf cart to help another person in need. Whether it's a broken helmet or a broken leg, we all know to ask him for help. His patience is nothing short of amazing. There is no limit to how far he will go to help anyone on this campus. He has been known to rise early in the morning to tape the ankle or quad of an injured student or faculty member so they can get through a day of classes. Not only has he earned the respect of the students, but also of his fellow faculty members. One colleague describes him by saying, "Every time you hear his name it's about something good; you never hear anything bad about him - never." He can always be found on the sidelines cheering the Governors on, whether it be to victory or defeat. He never gives up on the people of GDA. His kindness, compassion, and friendship know no bounds; he'll do whatever it takes to get the job done. We affectionately know him as "Wotty", and we all thank him for the phenomenal job that he does every day. He is the epitome of our school motto: "Non Sibi Sed Aliis".

For always being there when we needed a hand,
the 2003 Milestone is dedicated to:

Jeffrey Wotton

Editor Recognition

She has helped to make the last four years the best of my life. Her genuine concern for me, and the students, is simply remarkable. Her job is often thankless, but without her, our school would not be what it is today. I, along with the rest of her English students, always looked forward to her "Openings"; and her hockey team, to her enthusiasm and good humor. To say "thanks" to her is not enough; she has truly been an amazing part of my Governor Dummer experience. She has always been there for me, on the good days and the bad. She is always willing to stop whatever she is doing, and take time for me. She's a child at heart and the best advisor anyone could wish for. She is someone who deserves nothing but the best! Thanks for everything you have done for me! Even though I will definitely miss you next year, you can be sure that I'll be back...

Awards 2003

Her laugh can be heard from one end of Phillips to the other. She always has a smile on her face whether she is greeting a prospective family, or simply making an announcement at morning meeting. Her work ethic is evident in everything she does; it doesn't matter if she is working to plan Commencement, an Open House for Admissions, or coaching the soccer team. Her bright smile and comfy couch are always welcoming me for a talk about anything that may be on my mind. I can be honest with her, without worrying that she will judge me about anything I share in our conversations. More than an advisor, she has been a friend and role model to me during my four years at GDA. I thank her for her friendship and guidance, inspiring notes and poems, and great sense of humor. She helps me whenever I need someone to turn to. I will miss her when I graduate, but I have no doubt we will remain close.

Mom & Dad: Thanks for all you've done for me over the years. You pulled me through all the rough times I've had during my life and taught me to never give up. I love you both so much. I can't even begin to say how much I appreciate the sacrifice you made sending me to GDA. It has been the best high school experience I could have ever asked for!!! **Tim:** Even though it might not have always seemed it, you are one of my closest friends. Keep Maura in line at GDA! **Maura:** Good luck at school next year. I am so glad Tim will have a sister at GDA to take care of him. **Brendan:** You and Tim are the best brothers anyone could ever ask for. **Uncle Terry:** Thank - you so much for all your help this year with my college applications. You are the best uncle I could ever ask for! **Nicole & Maria:** When I graduated from eighth grade, I was worried that we would grow apart. But you guys are still my best friends. As far apart as we may move, I will always value my friendship, with both of you. **Kristen:** I know I don't need to tell you this, but you are one of the best friends I could ever have! I am so excited that we are both going to D.C. next year. You helped me through so much this year, always reminding me to keep it positive. I could not have imagined working with a better co-editor-in-chief. Oh, P.S. ALWAYS remember P.K. **Jen:** Even though we've only really been friends for two years, we have had some great times together. I can't believe I won't see your cheery smile next year every day. I know you will watch out for Tim and Maura next year. Oh, P.S. ALWAYS remember P.K. **Dan:** What can I say? I am going to miss you so much next year! It is going to be so weird going to school and to not have someone shouting, "PIT," across the campus. **Sarah:** I am going to miss playing field hockey next year with you so much. Kristen and I have left the Governor in two very capable hands next year. **Alicia:** On Wednesdays next year, I am going to miss our "chapel routine." **Lundy:** You are, without question, my favorite red head. **Amrit:** I am so glad we are going to school close together next year. Hopefully we can see each other a lot. **Melissa:** My favorite library friend. Thanks for listening to all my stories! I will miss you so much, but come visit me next year. **Kate:** Whenever I see you, I feel like we have so much to talk about: gossip, ER (especially Carter) and American Dreams.... I will miss that so much. **Robin:** I am so glad we got to know each other better over the past two years, because you are such a great person! **Micheline:** I will always remember the "fun times," we had in Latin class, especially for the 1_ blocks on Wednesdays this year. **Hilary:** Thanks for being such a great friend for the past two years! **Colin:** You are without a doubt one of my favorite sophomores. Best wishes next year to: Mike, Laura, Lindsay, Ben, Michelle, Laura P, Erin & Anya. Mrs. Seufey, Mrs. Leary & Ms. Chase: supportive of me during my time

I dreamed a dream of Francois III, Hannibal, "Allen Cooper Days," Ot Bridget Jones, "Lord of the Rings" The recent Purple Onion craze. I'll always love ya, GDA! Allow me, please, to count the ways:

Love, support, encouragement: You've given them all from the start. I've always admired your patience. Your kindness, your forgiving heart... You'll still be my role model. Mom. Even when, next year, we're apart.

For driving lessons, football games, Attending every drama show, Being a parent and a friend, And cheering me up when I'm low, Thank you, Dad. Your guidance Has meant more than you will ever know.

Two schools and seventeen long years- We've shared tears, laughs, and living space. Sarah, I'm proud of who you are; Marked by kindness, strength and grace, My sister is still my best friend- She's too darn special to replace.

Hotel room floods, the newspaper, And Michael Nacho - what a bore! Katie, the Ouija Board predicts: - That we'll be friends forevermore - That Luke Skywalker WON'T appear Until Star Wars: Episode 4. Vive Hugh Jackman, kiwis, That tacky French Louvre souvenir, My Chinese name (which I can't spell- That's why I didn't write it here). And most of all, time with Jenny- I'll miss her VERY much next year!

Flamingo thefts and grammar tests, "Can I put this in your purse?" Cannibal fish, Everclear- Some things don't lend themselves to verse.

Alicia: Heathrow would agree We "preppy kids" could've been worse.. Movies, country-club parties, "Girls' Day Out" to Build-A-Bear, Evening graveyard photo-shoots - with sparkly wings and fairy-wear! Erin and Robin, we're NOT lost! Friendly's is nearby- I swear!

"Why are we on Coffin Street?!" Impromptu food hunts - post-AP, Brantwood nights and shooting stars, Amrit still makes me dizzy... As does that evening's wisdom from Golfer & psych class pal Lundy.

Madame Abu, je dis « Merci » Pour tous les choses que tu as fait. I'll always view you as a friend; As an advisor, you're first-rate! Dave never fails to make me laugh- Thanks to him, this year's been great.

Little Senator, remember: It's okay to be left-wing! You're loved, Hilary, 'cuz you're YOU; In friendship, points don't mean a thing. Mike O'Neill, piano god, Thanks for helping me to sing!

Salut, France 2003! Heart of palm tree, escargot, "Covert ops" to nighttime Arcs Sunrises in St. Malo. "Aren't those donkeys awfully sweet?" Watching Justin try to row.

Rokous and the English crew: Thanks for Alroid tangerines, 100 Years of Solitude,

And Starbucks' potent coffee beans, We're not considered "booboisie," Whatever Rokous says that means!

Life is, old chum, a Cabaret. Much love to drama- cast and crew. Our fearless leader, Mr. Neill, For Mr. Brace, and Wannie too. Jen O'Leary, hooker mom, My dancing skills are thanks to you!

Gettings, thanks for the pep talks, (But not for trigonometry.. I'll also miss gab sessions with Ms. Klein, our "trailer lady." Can't leave out lab-bench burning days In chemistry class with Doc B..

Sans eux, my tale in incomplete: Skiing with the Searles family, Math class with Mr. Leavitt Volleyball with Anjali, Harry Potter birthday trips With Katherine R. and Laura P.

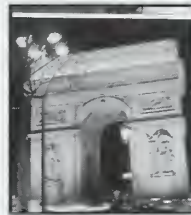

"West Wing" nights and chats with Suggs. Similar-themed talks with Kate, Bradley Whitford, cowboy shows- Always knew your taste was great! Love to Phil, Marj, Jessie C. And Colin, the world's best prom date.

Michelle, Benicio is great, But no one beats Al Pacino. Jocelyn, Jordan, Andy, Sam- Your departures seem so long ago! Who was Peter, my yearlong "love?" Now I guess you'll never know...

For all of those that I forgot: I love you more than I could say! The best four years I've spent thus far Have all been here. Thanks GDA! "Some of it's magic, some of it's tragic, But I had a good time all the way." -Jimmy Buffett

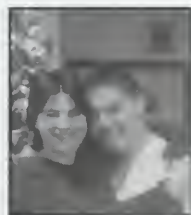

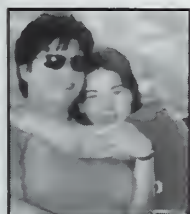

kristen d.

I can honestly say that it's been a *memorable* 4 years. **Robin:** I love you soo much. I don't know how I could have made it through another year without you. You've made this year the best ever. Keep your spirits high, only one more year left :-*. **Michelle & Alicia:** GO GDA TECH. It's been a long 4 years. Remember all the good times? Rath? Thompson? Oklahoma? We've been so close for so long, I can't imagine college without you two. Whatever you do, keep in touch, and never lose your unique personalities. **Dante:** What can I say; it's been a blast. Late nights, early mornings, friday meetings from hell, we've done it all. It's been quite a ride and for you it's not over. Spend your last year well, and of course give me a ring if you're ever down Baltimore way. **Russell & Justin:** You're not the newbies anymore. I think the PAC's in good hand with you two at the wheel. You guys have been awesome, make sure you save a game of flashlight tag for me when I come to visit. **Mike Ox:** We kinda lost touch this year, but it's all-good. Good luck wherever you ended up going (Bowdoin or Brown). Good times in Amesbury (the exploding apple), and always remember, especially if you ever get famous: I still have that "modern art" you gave me and *it will* come back to haunt you. **Cooper & Spector:** You two were the comic relief of my year. Have fun with college next year: your year abroad. And Dave if you're ever near Baltimore give me a ring, I'll be sure to stay off the roads. **Mike O:** NO More Morning Meetings! I hope you're having fun at Conn. College. I don't remember GDA without your presence, especially after you painted me blue. (I will never forgive you for that) Keep in touch; we'll work on our theories. You never know, our Nobel Prize might be in Physics not Bio. **Mr. Gettings:** I know you'll miss those late nights when I bugged you in your classroom. Thank you for being my unofficial advisor. And have no fears, for Dante will continue my legacy. You will never be able to get work done again, Muahahaha. **Mr. Karin:** I loved your class. We bonded like no class I've ever had before. You made calculus fun, thank you. **Dr. Bradley:** You inspired my love of the sciences back in freshman year. I loved our little visits. Now that the year is coming to an end, I can honestly say that the pristine attitude has been revived. Have fun with the rest of your teaching career. **Chris R:** How will I ever survive without someone like you at my bookstore? I still remember going to you for the first time and you already knowing my name. You are by far one of my favorite people on this campus so don't ever change. **Joe:** I can't believe a year has already gone by. I'll always remember the bad humor, the short hair, the messy desk, and of course the truck. You've made my year so much different than I would have expected. If you're ever in need of hand over at the PAC you have my number. Best of luck with teaching & Tech. **Jocelyn & Mike A:** My senior buddies last year, thanks for everything you did for me. **All the rest:** BEST OF LUCK!!!!

"I have never put much store by formal education, that is, I have always had serious doubts whether a man can be in any way changed or improved by it. Instead, I have had a certain confidence in the gently persuasive power of the beautiful, of art and literature, which, for my own part, did far more than any public or private schooling to mold me and make me curious about the world of the spirit."

Mum and Dad Where would I be without my famously attractive parents? I love you guys more than you can ever know. Thank you for everything, always. **Court** Let the good times begin! You're my partner in crime and I don't know where I'd be without my "older" seester. I really do adore you. **Kevin** You'll never even know how much you mean to me. **Claire** I love you to the moon and back, almost more than the moon itself. What would I have done without you for the past four years, putting up with my rambling nonsense and obsessive obsession?! You bring such light to every room you enter, just don't let Paris and its lumières keep you for too long. You have no idea how much I'm going to miss you, for everything. **Brooke** Where do I even start? Honestly (and I fear sounding diabolically corny) you're one of the best friend's I'll ever know. You're so honest, sincere, and giving - I admire your strength in how you take on the world. But you can't seem to get rid of me... so let's go take on Boston together! You'll shine wherever it is you end up; I love you. **Cory** I think we've pretty much exhausted every conversation topic there is, as well as sample every Starbucks beverage that exists. What more could we ever need? You're so stubborn (and always will be!) but without that your sense of humor, exquisite charm, and loyal spirit would just not be the same. You'll overwhelm DC (in a good way) and I love you. **Susie** Get your license! You've pretty much been there for it all, and I really don't know what I'd do without you to slap some sense into me. You're unique in every way, a one-of-a-kind Queen Susana. Your strength and determination will always prevail, and I love you (by default) but also because you mean more to me than you will every truly know. **David** So I guess you're pretty good at keeping secrets. Call me if you ever need a ride anywhere, okay? You mean the world to me. **Moxton** Watch out for MJB! **Kato** JV For Life, indeed! You rock my world. **Devan** Never will you fail to make me laugh; you're hilarious! You have such a genuine spirit and a knack for making anyone feel wonderful. Please don't be a stranger, ever. **Brooke L, Allison, and Kendra** My prom dates! I love you guys so much. I'm so happy to have found you before leaving this school; you're the funniest bunch of people I will probably ever meet. Remember all the good times in the basement of Moody and look forward to all the new ones to come. **Hammy** You're the advisor extraordinaire! I cannot thank you enough for everything you've done, and how much of me you've put up with. I'm going to miss you (and Handsome Jack) so much, and I love you. **The Rokouses** Thank you guys for the tea and hot chocolate, the books, the conversation, the warm welcome into my home away from home. My senior year would not have been the same without you. **Farmhouse** I love each and (Hannah, Molly, Yu Jin, Jane, Marisa, Sari, Asuka) for making my last year here storm! **Shoutouts** My volleyball girls, Amrit, Doc Scheintaub, Doc B. "Hold

every one of you! Thank you all Karina, Emilie, Emme, Yumi, so much fun. Take GDA by Laura, Kate, Allen, JP, Doug, Ian, on, dream away..."

Mummy and Papa- You have made this to me. I can't imagine it any other way. me. **Caroline-** You are a permanent best inside and out. **John-** You made my senior year. There's no one like you. You blow me away. **Kelsey-** aka Radic Booster #1. You have been a solid and dependable friend to me. You are unwavering for everyone you love. I have always counted on you and you have always been there. I owe you a special thank you for this winter; I wouldn't have made it without you. I'm gonna miss study hall chats, Starbucks, playing Mumzie, and the Thesis Bitch's bullet proof box. I don't know what I'm gonna do next year with out you in my room. Stay Rad! **Brooke-** You have such a good heart. I admire that and hope you stay passionate. Go figure, the yachting bitch is passionate! I won't forget the evening on the Sager Bowl, Study hall in pierce, my twin/other half first semester senior year, Bridgett Jones. **Cory-** (the last of the field hockey four) You make it easy to be your friend. You've always been open and easy to talk to. I won't forget sharing a boyfriend, cookie dough, the flour fight. I'm so excited to be in D.C. with you. You and Nadine have to hang out this summer (that goes to all the girls) **Laura-** You are like the friend from home who you never see but are completely comfortable with the second you are back together. I didn't see you a lot but when I did you were an understanding friend. You have always been unselfishly concerned... And Crazy! **Oli-** It's been so much fun getting to know the real Oli. You've kept me laughing. Be ready for my visit down under. **Katherine-** After 11 years of school together, I am so glad I finally got to be friends with you. You are so high-spirited, I love being around you. **Susie-** You were a good friend to me junior year. I wish things could have turned out differently. **Mike O-** Come visit me in Paris next year, as long as you promise no death universe discussions. **Kate-** I wish I had gotten to know you better. From the conversations we've had, I think we are very similar. **Julian-** Give me back my shoes! Have fun in the warm weather. **Doug-** I can't decide whether or not I'm going to miss your disgusting humor in my classes. =) **Farmhouse Girls-** I'm so lucky to have fallen on such a good group of girls this year. I'm gonna miss you all. Mom and Dad Thank you so love and support. I am truly have given me. Without you am, or who I am today. I love you introductory luncheon fortunately did not prove to be a sign of the four years we had standing in front of us. Since then we have shared so many memories, all of which I will remember. Between being passing partners for thirds soccer to "lab" partners in chemistry - "yeah whatever", switching from snoop to yogi - once, or from wearing the sketchers and diamonds in hockey to both saying heeey under the lax helmets, we have both grown together. Through the ups and downs you have always been there for me, and I know you always will - know that it is mutual. Thank you so much for your friendship, I love you! Here's to the staples! **Dan** honk aka mach H, I'm not quite sure where I would be without you. I am so grateful for your support and for the times we've had together. The talks over coffee (iced), beach trips, hot tub parties, and trips to Boston - a sign of what was to come, are times I won't forget. Thank you for everything, I love you. I'm so excited that you'll be so close next year. I can't wait! **Stirling** it's hard for me to leave, but I know that it's not really saying goodbye, so it's ok. Yeah? Our friendship is like how we've gone from three seasons together, down to one - the best always remains. Whether it was FH, those f-ed car rides, those parties, camps, bay states, breakdowns, or just hanging wherever, these things were highlights in my time here. Because of them, I was able to become who I am today. I couldn't ask for a more loyal and dedicated friend. I'm always here for you, and I know you'll do great things next year. **Kato** why is Jose on you? Perhaps it's because he loves the river and Jodie's playing so well with Hozzie - woo! But seriously, I'm so grateful that we became friends, cause I honestly don't know what I would have done without the continual 8 minute abs. Next year you're coming to the big game, we'll be GDA's number one fan, and we have to take a road trip to NYC to watch a wedding story. Thanks for all the memories and laughs. **Les** I promise to come back and fauge with remnants next year with you - maybe even barrel roll too! Thanks for being a babbling idiot, you always make people smile. Hold your head high next year and just keep running, you'll be fine. **Shan** thanks for the season I will never forget. You and **Annie** better get pumped next year! **Maria** you are truly a whackjob aka v woolfe. And I love you. My days wouldn't have been the same without you. **Tyler** you're a joke and no one gets you, except for maybe eyez. We must have some more beach dinners. Thank you for your support and insight. I'll see you around next year! **Torie/Bry/Moira** Thanks for making and being apart of a memory I'll never forget - winning to whole thing. I'll miss it most of all. Thanks to **Block** - Ritchie wants you, **Jen** - english wouldn't be the same without you. **Brooke, Claire, Libby, David, Doug, Amy, Julie, and Liza** - I'll miss you, but Kato and I will come back to say hi next year! **Scharlie** I'll never be able to tell you how much you have meant to me. GOODBYE!

Well seniors, if you're reading this it means that GDA's yearly *warpath* on seniors after May 1st wasn't as successful as past years. We made it fellahs and I hope you all enjoy college, oh tell me what its like because, you know, I'm going to be doing my 7th year of high school. **To the Football players**, we got screwed this year, so next year do me a favor and do it right. Crush everybody so that there is no question as to who is the better team. **To the Ski Club fellahs**...well...I'm sorry, I can't quite remember what it was exactly that we did. LOL! **To the Track Team**, we did our best and we were beat by injuries, but it was a successful season on the whole. **To Ingham**, three years in that place and seeing go from an all out zoo to (SLURRRRP) a decent dorm was a good experience. I'm gonna miss you guys, make sure you look after Stickney and Kravers and especially Robby Rob. And make sure you *look out* for Suggs, he's everywhere. And boys, always remember the simple math Drinking + Dorm = Bromley. **To my roomy**, I dunno how u made it through the year with me as a roommate, good times. Erin House- I don't know if I can live anywhere without you living next to me, who will I talk to, who will I watch cartoons with, or play spit with. We have had four fun filled years together, and I will try to hold on to as many of those memories as I can. For example, Meg's couch, the cat, Kate's chair, Jeffery Anderson, "you wanna be like grandma", "another win for Dan F. Shulman", "your gonna need the head start I am given you", "oh father your stewed again, rejected by my onlyest father", "I ma riding side saddle, I ma riding side saddle, well I am", "I didn't say it was your laughing place", "you no eat like that", "away, away, away from here", "evil", "up in here up in here", or the times we played beach ball in the room, are brilliant ideas of how to make money while still going to school, skipping a majority of our classes together sophomore year, and all of freshman year is one giant funny memory. I am going to miss our late night conversations, and having someone who may not always understand me but who is always willing to try. "Oh and don't forget you are stupid". **Alicia-** you have been another great support for me throughout high school. We have also had some funny times, like when we had to get hay for Oklahoma, the No doubt concert, and purchasing random things for the school... anyway you are my confidant, and we have overcome many barriers together, without you high school would not have been the same, by far. Thank you. **Amrit-** very few people know the "real you" and I think I can say that I do, which is a great privilege. No matter what happens after we graduate, never forget that when you become rich I do expect you to buy an island for me us. And remember to always relax, and take days off now then, because nobody likes a grumpy Amrit. **Dante, Russell, and Justin-** you guys are like the little brothers I never had, and yes, always wanted. **Caroline-** some day you will meet the right guy, until then try and stay away from the bad ones. **Phil-** southern California kicks northern California ass. **Erin Giblin-** you're a genuinely good person, you deserve only good things out of life, but when the bad happens you have to kick, punch, swear, rant and rave, and move on to the good again. **Liz Hicks-** wherever you go in life make sure it makes you happy. **Lundy-** we will always have the very first dance of our high school career. **Mrs. White-** without your help, guidance, support, and confidence in me I wouldn't be here. You have no idea how much I enjoyed having you for an English teacher freshman and sophomore year, no one has been able to compare. **Mr. Karin-** if I had had you for a math teacher all four years, I would have done much better in math. You have a gift for teaching. **Mrs. Chase-** honestly who knew librarians could be such hip chicks. **Mr. Wann-** You have an amazing sight. Performing "Woman in Manhattan" was a scary but wonderful experience, I was flattered when you ask me to be apart of it. There is so much about you I admire, never change except for yourself. **Sto-** unfortunately I didn't get to know you until this year, but you are defiantly worth getting to know. I envy your passion. **Hammy-** what can I say; I am going to miss everything about you. **Mrs. McLain-** you may be little, kick some serious ass. **Joe-** you have able to learn from anyone else, I am I think you're funny.

foundation&the one I could always rely on. I better mom. Thank you family and R.I.P did we make it all 4 years? I was pretty sure one of us was gonna get the boot." "We thought you'd been run over by an elevator." "Who's got muchies tonight...not me!" "Does this help adjust your eyes (click on-click off)," and flavored cigarettes. Remember when we stole that couch, or tried to keep that random faculty cat in our room. Who's gonna deal with my nakedness&late-night phone convos? I'll miss you more then words can explain. Love ya. **P-dub-** weeklong-sleepovers, Colonel, homeless Steve, getting kicked out of the semi-formal, 52concert&the pit+hotel, your ghetto driving-school, the boston rat. We almost ruined our friendship but somehow we got through it and came out on top. For real, thanks for being my shoulder to cry on for 4 years. Theres alot of crap that I should but can't mention here, but we both share the same memories&that's all that matters. And remember, u know what beavers look like **JDevan-** crazy as hell. **Jen-** best goalie ever!! **Kendra-** fix your damn back&have fun at UNH. **Shannon-** 112 dancin at pandas-classic. **Dejota-** you're the weirdest, skinniest, goofiest kid but I love ya. Screw anyone that doesn't see it, they're not worth being in your life anyways. **Ebony-** my 2nd wife-shhh. **Alex-** you are such a huge part of these last 4 years. You helped me grow into the person I am today&left such a lasting impression in my life. Thank you for being *both* one of the most important people in my life and my best friend. **Anthony&Antonio-** I don't know how I survived without ya'll. **Mr & Mrs. Suggs-** my parents away from home, you have made these 4 years much easier. The Pelican, RB, the night at my house with your jawbreaker and grapevine...there are so many memories. Have fun at Howard, and you know I'll be there to visit all the time! I wish that it was still the same way, but for whatever reason we've grown apart. Sitting on a guard rail, our sex talks with Erin every bus ride home from a hockey game...Good luck next year, everything will be fine. **Jen:** One of the few people that I've stayed friends with all four years. You will always be one of my best friends, even if you do beat me out for the Rhodes.

Kelsey - I'm really glad we became such good friends this year. You are an incredible listener and a wonderfully compassionate and strong person. Never give up your natural goodness even if the world around you doesn't always seem to appreciate it.

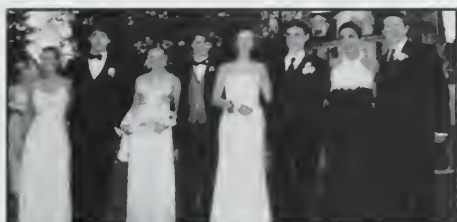

Kate - Thanks for the fun times. You are an awesome person to hang out with, and I am really glad I have become your friend. Jackie - Thanks for your energy and laughter, from 7th grade dances to EPIIC and Kowloon. Think of me on every birthday; every time you eat rice, and the first time you drink orange juice. We will surely keep in touch. JP - You always know how to make everyone feel important. Keep in touch...you've been a great friend. Katherine - I promise we'll be friends when we're eighty years old. Even when I don't see you for a while I'll find everything out through the mom network. Allison T- You have become an amazing person who will do amazing things. Thanks for including me, and I hope you always do. Aanand - When you're a billionaire, see if you can spare some change for a starving artist like me. Ann - You have been a huge part of my life and many of my most sacred memories. Always be confident in yourself and you will do awesome things. Phil - You're a great kid, except that you kill innocent animals. Amrit - Always trust yourself and you will achieve everything in your dreams. DJ - You're a great kid and you will do amazing things. Keep in touch: Meghan, Jenna, TylerC, Lindsay, Angela, DanG, McDon, Laura, Mike, Devan, BrookeL (lets be friends), Kristen (see your yearbook), Maria and everyone else whose life has been intertwined with mine. Thanks to the faculty for sharing many of your ideas and passions with me. Mom and Dad and Grandma - Thanks for my life. As I go away and begin to see you as adults, I will appreciate even more how unique and special is our little family. Everyone: Never hesitate to contact me; I will always welcome it!!

Mom and Dad: Thank you for everything. I couldn't be where I am without you. **Tim:** "What's a heen?"... You're an amazing person and a wonderful brother. Thanks for being there. **Allen:** "Hey guys, its what's inside the mug that really matters." I think almost everything you say is a quote. Take it easy. **Allison:** Someday, they will call me Eli. And my wife will be Lindsey Waters. **Amrit:** "You know who's really scary? That bible guy from Contact."... "Yeah, go to sleep."... "I can't...he's really scary." We didn't chill much this year, but you've always been a great friend. **Brooke:** Sam Waterston...don't give up the dream. **Brusin:** Don't become a Kevin Costner. He's so bootleg. **Clunie:** Bring out the what? **Dan:** I think you could have run GDA single-handedly. **Dave:** For the record, you're a more based-on-time-person. Let's keep up the fly-fishing. **Dr. Bradley:** Thanks for making me think. **Gobin:** We gotta finish that Madden game, I was making a comeback. **Jackie:** "Mike, I think the pizza man drove into your leg, broke it, and then ripped off your pinky toe. That's why we couldn't do the project."... "Allison, I think you just ran a red light, passed 3 cars, and did a 180 on Rt. 1."... "Mrs. Jara, we were late because Mike purposely drove over an armadillo and I had to clean up the mess"...Do you see any problems developing? Keep Nacha in your memories and hold onto the ring. **Kelsey:** "Vanilla's fine..." Super-cleanup-crew never fails to impress. **Meghan:** You should try out for varsity dish duty at Williams. I heard, off the grapevine, that their team is pretty swell. **Michelina:** No more green tea drinks from sketchy guys ...keep telling the truth. **Mike D:** Good times, always good times. **Mrs. Okula:** Without you, I would be a "blue-person." Thank you for all of your help. **Noblitt:** Want to count some grass? **Susie:** aka let's leave Bill out of this.

To create a page of words and school hours, the canvas must lead the pack against St. Paul's, a magical trip to Florida... -for more prospects.

Never again in the history of my life, players step into the same arena, with moments. The essence of my high school experience lies in this: the elements of my world; and the prospects. So with that: What a lark! What a plunge! Right now, on this page, my high school history is the dawn of a beautiful morning where the prospects are limitless.

It could be a summer morning in Marblehead. At Ladycakes, there's coffee, a muffin, and Kate. The afternoon will be sunny with a bike ride and a picnic on the neck where live the people with the Gatsby lives, followed by a twilight ride in her Cabrio, a 4th of July party, and maybe a Red Sox Game.

Or it could be an autumn day at GDA where I wake up to get breakfast with mom and Aaron. Caitlin and I will rush to school in her Passat while listening to W'BZ news, while the Sun Also Rises over the marsh. Maybe at morning meeting I'll perform in a skit or give a chapel speech. And then in Wann's English class or Quigley's History class, I will get to excitedly use my voice, certainly in exchange with David's. I will look forward to what the afternoon has in store: maybe I'll beat the ISL champ in race, run alongside my teammates who in the course of a cross-country season become much more, or I might attempt to start a newspaper with Mike and deliver it all around campus in the midst of an autumn night. Or after school, I might leave for the weekend with Myowa, Brooke, Meg, and Kate. It's possible the day could be a winter one: discovering so much in Pippen, discussing a brighter spring with Mr. Stowens at a perchance lunch encounter, and maybe after that, a coffee run with Kate, trading wheels for wings.

A day over March Break could involve a baseball field in Florida or in Hamilton, or paradise in every meaning of the word in a trip to Florida with Kate.

Or it's a spring day, where I put on my #5 and throw that elusive no-hitter in a baseball game alongside my father.... Maybe afterwards a twilight toss on the quad with Kate, and maybe Teddy, or a drive for ice cream.

But What is this terror? what is this ecstasy? What is it that fills me with extraordinary excitement?

It is this day. For there it was.

And maybe it's damn pretty just to think of.

Mom and Dad: Your perfect parenting has been the result of your strongest trait: patience.

Aaron and Caitlin: You've been my biggest lessons in empathy.

Cory: Your friendship has allowed me to watch parts of myself, to learn more about me.

David and Mike: You've been special friends.

Kate: Love has been the bitter and the sweet. Your consciousness and intuition radiate your vivacity. I've seen in you life itself. And it I look close enough, maybe its meaning, too.

"A good life is one inspired by love and guided by knowledge." Mom and Dad you have always supported and provided me with these, I am forever grateful. You have been there all along the way, and all I can say is thank you. Caleb you have guided me all these years and no matter the distance between us I will always hold you highest in my heart. I will always be there for you if you ever need a "cling." John Thomas you are my best "Bud" and nothing will ever change that, best of luck at Roger Williams. Tyler "hmmahmmahmma," kid you have always been there to push and challenge me, but in the end what I found was support and a true friend, I am sure you will have a blast at Connecticut College. Andy, GDA would not be the same without you; we always got along with out a problem. I hope to see you on the ice next year, because I am going to light you up! Dante and Chris we shared some good times hanging out and playing Frisbee. I have always thought of you both as fellow seniors. To the members of the Cross Country team, we had some great times and I am sincerely grateful. Best of luck the future to all of you. Christopher, you "Sasquatch," it was always a blast hang'n out. Jefferson and Timothy we are what JV golf is all about. I have enjoyed getting to know you guys this past season. To the crew Eden, Gregory, Douglas, Chris, J.P., Tim, Ty, Cory, Michael, Craig, Jacqueline, and Allen it has been a blast. Other "shout outs Rachael," Oliver, Jennifer, Sean, Lesley, Laura, Jessica, and Nicholas. You guys made GDA, and I thank you for that. I owe my success at Governor Dummer Academy to the following great teachers: Mr. McLain, Dr. Oleszko, and Ms. Connolly Potter, thank you all. To Mr. Abusamra your presence as a teacher, coach, and advisor will never be forgotten, thank you. To the "Class of Two Thousand and Three" we finally made it! And to the rest of Governor Dummer Academy best wishes and thank you.

First of all, Yay God. Thanks for everything.

Also, thank you **Mom & Dad** for being such incredible parents. Thanks for giving me so many opportunities to pursue what I enjoy. Thanks for always being there for me. Thanks for being so patient and understanding. But most of all, thanks for being such great friends. I love you guys so much **J. Ben** – Shut up! No, you suck at lax! J Have fun at Occidental next year, with your beaches and mountains, while I'm getting frostbite in Burlington. Good luck! **Joe** – For once, I'm going to win an argument: HA! I WIN! MINUS 6 POINTS FOR YOU! You're a wicked chill guy. We have to get some paintball in sometime soon. Good luck in your senior year! I know you'll still kick ass in throwing. **Jake** – If I'm ever on a game show where they allow outside callers for help, you're going to be my "classic rock" aid, ok? J Don't forget National Talk Like a Pirate Day! JV toothball was fun while it lasted. I am, and forever will be, Captain Crunch! And yes, you do make bad decisions. You've been a great friend the past couple of years. Good luck next year! **Steve** – I know you'll probably never read this, but you deserve a spot in here. You're my best buddy. We've had so many great times together; I hope they don't end...honking at the lone car at midnight on 95...your camp in Maine...Water country...Metallica concerts...running in thunderstorms...Because of you, I'm a better, stronger person. Thank you. Have a sweet time at UMass next year. **Greg** – You are the greatest brother and friend I could hope for. You'll always be my little bro, no matter how much taller than me you are, Good luck here at GDA next year. **Men's Varsity Hockey** – Good luck next year! Make it further into the tourney. Beat Cushing and St. Seb's especially for me. **Everyone else not mentioned who've made my life better: Grandma and Grandpa, Grandma and Papa, Lindsey, Alix, Ollie (RIP), Kateri, Sean, Sam, Johnny, all of my aunts, uncles, and cousins, Bub Colby, Bruce Usher, Mr. Karin, Mr. Nguyen, and Mr. Searles.**

...And that's it. If there's anyone I missed, I'm sorry. Thanks GDA. It's been a hell of a ride, but it's finally over. Adios.

I wish, I wish, I wish in vain, That we could sit simply in that room again. Ten thousand dollars at the drop of a hat, I'd give it all gladly if our lives could be like that.

Mom, if there is one person I would like to be like...its you. You are my best friend. I love you with all of my heart. Dad, we've had our ups and downs, but one thing I can never argue is your love and devotion. Thank you for always being there. Jen- When I first came to GDA, I had no idea that my best friend would be in the room next door. Throughout the past four years, you have been the one that I could count on- and you have never failed me. You have been my twin, my sister but above all my best friend. I Love You. Libby- When I think of the last three years without you, I ask myself, "Was I really living?" and the answer is NO. Over the past ten months I have found someone who I cannot live without. When I'm with you I don't have a care in the world, but we NEVER have enough time. We've shared so many unforgettable(two t's) experiences that I can't keep track, and every one was truly awesome. I know that's what kept you motivated in track. **Wilkes:** Make sure you listen to your Proctor Ben, and don't be a jerk like that vacuum salesman, "Turns out it was just a half eaten meatball clogging the intake valve." Packy keep the practices as intense as always. What are you going to do without a translator next year? Who will understand you? Finally I will finish it off with a few quotes. "If a man does his best, what else is there?" - General George S. Patton (1885-1945) "Whether you think that you can, or that you can't, you are usually right." - Henry Ford (1863-1947) "The optimist proclaims that we live in the best of all possible worlds, and the pessimist fears this is true." - James Branch Cabell "Obstacles are those frightful things you see when you take your eyes off your goal." - Henry Ford (1863-1947)

This is one of the hardest things I've had to write, mainly because of all the thought it requires... but here goes. First I have to thank my family, who I love. Especially my mom for all of the opportunities she has given me; I never would have made it as far as I have without her. Andrew I know we don't always get along, but it is all in fun, and I want to thank you for being a cool younger brother. Jackie you are the best sister ever and I hope you stick with the sports you play, you never know where they may take you. Now to my friends, I want to thank you all for making the journey so enjoyable I have so many memories that I will never forget. **J.P.** you are the best man and we have to keep the good times going, even if we do it at different places. **Craig** you my boy and that will never change, so even though we'll be in different states know you got my back and you know I got yours. **Doug** you are awesome man and I hope you don't change, because I don't think the human mind is meant to be more warped than yours is now. **Ebinger** we had many a good time my friend and I don't want that to end so keep your positive outlook. **D.J.** you know how to live life to the fullest and always bring energy everywhere, and that keeps the party going. **Eden** though you not always follow everything that goes on you are always having a good time which helped me have one too, thank you. **Cory** it may have taken a while, but we a way to be good friends and am I so glad we did. **Devan** we really started talking senior year which is a shame, because you are one of the coolest people I know, and the only reason I give you a hard time sometimes is because I see you as such a good friend. **Megan** I have so much fun hanging out with you, you are always ready to do something a little crazy, the world needs more people like you. **Greg** we have known each other a long time and had some good times I want to thank you for, because that is what life is all about. **Tyler** you and I rally only started hanging out senior year which is to bad because you are cool to hang out with, and don't worry I'm sure you'll get those headers some day. **Brusin** we had good times like German class and I'm glad you were ether, because it would have been boring without you. **Ben** you have a really good sense of humor and your lines are awesome I hope we talk so I can here more. **Alana** you are fun to hang with and I will never forget you. **Tim** we had good times and I will remember them all. **H.J.** you have to visit, especially since we are going to the same college. I hope you all stay in touch, because you all mean a lot to me and I know I will need to here from you in college to get me through. "What a long strange trips it's been, sipping life from a forty once bottle of sin." K.M. Kings but I loved every minute of it and would not change a thing; I love you all. My one piece of advice for everyone is simply do not tailgate the police.

Mom and Dad, thank you for everything. I could have asked for better parents, you guys have been great through everything. **Jamie**, I'll always have your back kid, enjoy your time in high school cause it goes fast. In a few months the house is yours. **Mr. Searles**, you've been a terrific teacher, mentor, advisor, and friend, thank you. **Greg S.** only a true friend would jump out of a plane with you. You're the man. Keep in touch; you'll definitely have to come visit at UNH. **DJ**, partners in crime brother. Sooo many great times (end of preseason,) all I can say is UNH next year is going to be a blast. **Doug T and Craig B.** two of the craziest guys I know. You guys made everyone's days at GDA better than I thought possible. The school will never be able to replace you guys. Don't ever change your ways and make sure you keep in touch and come up to UNH a few times. **Chris E.** you are living proof that nice guys don't finish last. Don't ever change kid. Chillen with you is always a good time, keep in touch. **TY**, The Dominican was nothing but good times, on warm beaches, with hot bodies, and cold drinks. We have had great times together over the years. Hampton girls hahaha. Take it easy kid and keep in touch. **Greg M.** Newbury 50's cant touch us. Keep in touch cause between the both of us we have many more good times to come. I'll be up to visit at BU. **Tim H.** July 4th has become a ritual. So many memories from your house and the beach. **Phil M.** we came and went from LAS at the same time and did the same here. I wouldn't want to spend these last eight years any other way. **Megan L.** you are a talented, smart, endearing, and extraordinarily beautiful girl and don't let anyone tell you otherwise. Getting to know you over the past few years has been a blessing. I wish you the best and I hope we keep in touch. Much love. **Jackie R.** you are an amazing individual. You work harder than anyone else at everything you do. I have great admiration for you. Just remember to slow down and enjoy every once in a while because no one deserves to be happy more than you do. You've been a great friend over the past few years and always willing to help, thank you. **Cory D** It seems like yesterday was the first night of unity day's freshman year when I gave you a piggyback ride around campus, but now we are about to graduate and I'm writing this for you. Much has changed since our first day here because for the last 3 years and 360 some odd days it has been you that has carried me through the tough times. You always were there for advice or to put me in check when I needed it or just to make me laugh so I thank you, much love and keep in touch. **Brooke E.** you are truly a kind hearted caring individual, anyone who thinks otherwise doesn't know you well enough. Much love and stay in touch. **Eden G.** we have been through a lot together, since freshman year, and through everything we have always managed to stay close, I love you like a sister and will forever. **Gwyn S.** expect to be hearing from me around this time in the year 2012, how does a small town in the south of France sound. **Devan B.** you are one of the sweetest, most pure individuals I've ever met. You bring a smile to my face every time I see you no matter what mood I'm in. I hope we stay friends forever. Much love keep in touch and remember to visit. **Tex** my brother from another mother you are the man im sure our paths will cross again in the future. **Mayowa** we have not forgotten you my friend. **Ruth** enjoy and make the most of the time you have left. **To All:** May the best of your past be the worst of your future.

Mom: Thanks for putting up with everything I have done over the past years. We've been through many tough times but I love you for always staying strong. **Lauren:** Where do I begin? We've had so much fun together. Our relationship has started to develop into a great friendship and we are both better people because of it. **Dad:** Thanks for watching out for us. I love you. **Blake:** Stay real man; stick with doing what your heart says and you will make it. I feel like we've been through everything together but we're still young so I know there's so much more. **The following six of you are my boys; I am a better person because of you.** (**Doug:** Many people look at the two of us and wonder how many times we were dropped as children. But I'm cool with that. We've had a great few years living live to its fullest. **Chris:** Where to begin man? You've been a great friend of mine since we were both lost freshmen. We've changed so much but only for the better. **Tyler:** I'll do my best to keep away from the young ones on the dance floor. **JP:** Dr. Jack anyone? Too many good times at your house. Thanks for everything. **Megan:** Our relationship is way too violent. No more slapping/hitting, unless it is needed or on a long ski trip. **Brusin:** hair does not count as protection; do not forget that over the next four years. **Gabby:** You are one of the chilliest people I know. So many fun times together. **Eden:** I have so many memories of everyone at your house, Super Bowl, Graduation, random weekends. So many good times. **Oli:** I am awesome at 3-point turns. Sorry I almost killed you in Boston; I just thought that you really wanted to see the front of the train up close. **Erin:** The formal was a blast. Sorry I had to leave you alone in physics. **Jackie W:** Thanks for being friends with a loser like me. Have fun with you last year at GDA. **Alana:** calm down...really. **HJ:** Stats was chill. I admire your spirit and individuality. Thank your mom and sister for putting up with me. **Binger:** You're the gorilla...I mean man. You are a genuinely kind person and never stop laughing until you cry every day. Do not lose your sparkle. **Dingleberry:** I had an absolute blast at the prom. You are never afraid to be yourself and that is an extremely admirable quality that you should hang on to. **Gwyn:** You have taught me much. **Freshmen:** You are the only class at GDA that has any. Keep it that way. Without deviation from the norm no progress is possible. So try thinking or acting differently; you might like it!

Being you is harder than it seems. It's very easy to hold yourself to other people's ideals, methods, or expectations.

If you stay completely true to yourself, then you realize that happiness is much easier to attain.

Expecting perfection in relationships and life leads to disappointment. Living in the present instead of in the past thoughts or the illusion of the future leads to fulfillment.

I thank all of you for being part of my life here. Through the good times and the bad ones. I have learned a lot about myself and what I want to do in my life. I don't really know what to say to everyone individually; just make sure you learn from your mistakes and follow your own path. If you drink your drugs, eat your school, keep away from vegetables, and stay in milk; anything is possible! Best of luck to everyone. -Judah

Mom & Dad-
Thanks for Everything!

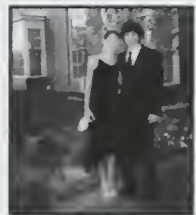

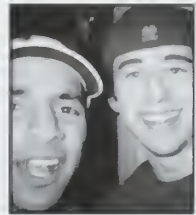

Mom and Dad- thank you for everything, words can't express the gratitude you deserve. I love you. **Julia**- I'm glad you decided to come to GDA. You're a great little sister, have fun the next three years. **Chris**- you helped me out a lot in my high school career, and I really appreciate all of it. Even though I didn't listen to all of the advice, I respected it. Thanks. **Aanand**- what can I say bro? We slacked off more than any two people I know in everything except golf, and managed to have a hell of a lot of fun doing it. The car rides to tournaments were a good time, even though the golf wasn't always great. You offered me a lot of good advice over the years, and I appreciate it. You're my best friend, and thanks for everything. **Tim**- all right, I'm fountain boy, but it still was your fault. We had a lot of good times at your house, but remember I'm still king of the Beirut table. You're a great competitor, and I wish you luck in the years to come. I consider you to be one of my best friends and hopefully that will continue. **Moon**-thank you, I consider you to be my mentor and that will never change. You are the best person I have ever met. **Ann**- a year ago I barely knew you, and now you are the most important person in my life. Everything I have told you is the truth, you are the most amazing person I have ever met. Thursday nights were a blast, and I won't ever forget them (Friday afternoons were fun too). I love you and I always will, don't change. **Jeff**- we had a lot of good times (me running over that cone) and all the trips to the two aces were fun. Have fun on Bourbon Street. **Gabby**- Horny Goat Weed, have fun in Tennessee. **DJ**- well kid, we sure made honors classes more fun than they should have been. I have no idea how we passed, but we found a way. Good luck next year. **Josh**- The Simpsons is the best show on TV. Next time you invite me to a game, have tickets though ok? **Lenoard**- Irish Brotherhood for life, good luck next year at UVM, don't catch a cold though. **Lyndsey**- you are the coolest sophomore, I had fun getting to know you. **WAR IN**. **Donnie**- be a good leader next year, keep working hard, and good luck in the future. **Gallagher**- super 3-way and a small fry to go. We have shared so many good memories and you have helped me grow so much. I will always be there for you- I love you. **Mr& Mrs. T**- Thank you for being like my second parents. You treated me like a part of your family immediately and I will always remember your kindness. **Phil**- How? I mean really this is getting ridiculous. Thanks for being a great best friend. I still remember that you didn't play soccer in the fall so I wouldn't hang out to dry. I will always remember that. **Tim J**- I should kick you in the junk allz your gonna do is play and live in phat house with a phat car. I'll never meet anyone who knows how to have as good of a time as you. You'll go places you're a hard worker. Thanks for being a good friend and a great teammate. **Blacky**- Yes your mannerisms are strange but you know what your funny as hell and pretty laid back, don't let the big easy eat you. **Moon**- It took me till this year to realize that you are the coolest guy on campus. Thanks for giving me the chance as a freshman when I couldn't break 100 I think I dun good. I owe you immensely. It seems like I only arrived at GDA two weeks ago, but already it's time to leave. I guess this is thanks to the people here and how welcome you all made me during my time here. I don't feel I've got to know any of you as well as I'd have liked, but I can honestly say there is no-one I met at GDA that I dislike, and I think that says something about all of you. There's not enough room to thank everyone individually, but to some of the people who made my time really special: Mike- thanks for making Cabaret such a blast, and helping me with those damn songs! I couldn't have done it without you. Ben- I don't know how you'll survive next year without me, but I hope you'll manage somehow. Try not to kill yourself over trivial things, it's not worth it (yes, even the printer!) Doug (and Doug's parents)- thank you so much for your generosity during my stay here, vacations et al. I really appreciate it. Peter- you have great potential that I think you're just beginning to realise. Good luck at Deerfield next year and hopefully I'll see you at college in a few years time?! Katie and Kristen- thanks for making me feel my opinions matter! Sorry I didn't get to write that much for you. Allen- thanks for making my first weekend here the most interesting of my GDA career! Still no horseradish sauce in the dining hall though. Allison- thanks for putting up with all my speeches. You're probably the most talented violinist I've met, keep it up. Alex- thanks for putting up with my caffeine highs, German accent and general strangeness. Still can't believe you dumped me twice in one day though- despite the pineapples! Honestly. Sam- your interest in England kept me going, even if it was a bit worryingly obsessive at times. See you in three years? Garson and Jessie- stay strange. Jon- get a haircut. Keep playing Beatles- there's nothing better. All the faculty- thanks for making me feel so welcome halfway through the year. And finally- thanks to everyone here.

If you're ever across the pond, give me a call.

Firs to my parents and my sister, any words in human languages can never express how much you guys mean to me, but I'm gonna have to try. **Father**, you had always bothered me through the half of the year calling me at 6:00 a.m. As you might know, that's too early! I know it was because you worried about me, but I still wouldn't appreciate being waken up on Saturday and Sunday mornings by thousands of phone calls! **Mother**, I really thank you for sending me all those great Korean foods. Those moon pees and curry sauces were mad good! I also appreciate you for hating all my friends, who are female (j k). **Song-Hee**, you are the best sis that exists on the earth! By the way, thanks for sending me the cheapest doll in the world for my birthday. I really enjoyed punching that doll when I wanted to beat Min-Soo up so badly. **To GDA Asian Powers, Jee-Hee**, I am really sorry, because you've got two more years at this 'Jon-Na-Jja-Jeun-Na-Neun' place. You were like my sister! We had some great time in Boston and in my room watching my lil Viv. Oh, I almost forgot. You are a really good cook. I'm gonna miss you. And don't forget to take me with Yoo-Kyung, when you go to the stream in the mountain! **Min-Soo**, stop eating my food! You piglet. You are still begging for my noodles when I am writing this, for Christ's sake! And pay me my money. I'm gonna miss beating you in Tekken 4. **Asuka and Sari**, you Japanese kids truly amused me through the year. I liked the way you guys laugh and chat in Japanese. True that you guys look innocent, but I know how hentai you guys are! Sorry we didn't have time to watch 'Honkeno Yomeh.' **Joon-Sung**, keep up with your singing skill. By the way, good luck with your girlfriend! **Freshmen**, just practice Basketball, someday you guys might beat me on the street ball in Korea. **Lil Rae Rea**, I owe you much for your concerns about me. You helped a lot for me to go through my first year in the States. Thanks. **Eunice**, I am sorry to be sarcastic all the time, but I was just teasing you (you know that!). **AND, FINNALLY, TO MY Lil YOO-KYUNG**, I thank you so much for being around me when I was about to give up everything. Even though you didn't do anything, your existence changed everything in me. Your eyes, nose, ears, lips, and everything, not to forget your smile, were the things that held me from getting off from the right track. Well, I guess all I want to say is thank you. And I am sorry because I can't promise anything and I can't say I LOVE YOU. It is because I know you deserve a better guy not a guy like me, but just wait till the day I become the better guy and the best guy for you. I will save the three words that I can't say now till that day. Anyone else I missed, PEACE. **By the way**, Ji-Young, where did you hide my ...?

Well guys its finally over. I don't understand how time can go by so slowly and so quickly at the same time. **Mom and Dad** I don't know how to say thank you for the infinite loads of laundry, long rides back to school on Sunday evenings, and support at tennis matches and other sports events. Some weekends it was difficult to say "I am not coming home, I am staying at Allen's" or "goodbye" prematurely on Sunday morning, but I guess it's just part of growing up and moving on. On those weekends, even as a tear full of yearning to remain little forever, rolled down my face as the car rolled down Chestnut Street, I knew you two supported me and wanted nothing but happiness for me. I could not have left otherwise. I love you. **John**, it was always nice to talk to you once in while and get the advice from an expert. Thanks for some fun, maybe a little too much, at Club Mid. I hope you make it to the top so I can travel to watch you play golf at all the best spots in the world, on your dime. Love you tons! **Brooke**, who would have ever thought we would be friends senior year? Thanks for the second chance. We had some good times in "The Farm" eating half gallons of ice cream, peanut butter and fluff, watching the stars and of course cheering for Nomar and the rest of the Sox in extra innings until two AM. I knew you would come around, even if it took a trip to Vietnam and a whole lot of peer pressure. See you in York! **Cory**, too bad I did not know you before junior year when I pretty much turned straight edge, you sure know how to throw a party. Thanks for the girl nights, whether it was shopping, doing facials, or attempting acrylics. Good luck at GW. Yea Pink! **Allen**, no matter how many times I tried to write what you mean to me and how much you have given me, I could never fit it in 500 words, or even infinite words for that matter. You have given me memories that no one else has: rides through country back roads the crisp fall air of Vermont whipping by us like the time at GDA, snowboarding in below 0 degree weather, a twenty five hour long car ride to Florida, tasting Key Lime Pie, ridiculously hot Red Sox games, coffee or hotdogs in market square, toasted marshmallows and red sunsets at family camp, surprise birthday parties, the best Christmas ever even though I left in tears, staying in the sketchy New York hotel, Disney world, bunny ears, late night early morning phone calls, "experiencing" BU, I could go on for pages. I am still waiting for one memory though; I hope you remember how to get to Logan after living in Chicago. I can't tell you how afraid I am of what my life will be like without you in it everyday. Not being able to say, "I need you, will you come down to school and just sit with me?" I know that waking in the morning and knowing that I can't see your face, hold your hand, or feel the comfort your personality gives me during the day is going to be the hardest thing I have faced in my life thus far. Thank you for the happiness you have given me since that last dance freshmen year. I love you. P.S. If you want to know, Chicago is about 17 hours from Skidmore.

Mom and Dad- I can't write the words that will let you know how much I love you and appreciate how much you have done for me. You were there at every meet and every performance since day one; a child could not ask for more love and support than what you have given me. **Sarah**- You are one of the few highschoolers I know who knows who they are and stays true to themself, never lose sight of that person. **James**- You are by far the coolest kid I know. You have the best laugh and are a great kid to hang out with. **Gwyneth (LEGS)**- My partner in crime. Poems, Halloween, getting lost, and science class. We have been through it all, ying and yang. I don't know what I'll do without your uncanny sense of direction to guide me. **Claire**- A true friend is one who you can tell everything to even when you haven't seen them for months and this is how we worked. You are one of the true thinkers I know and you always made me laugh, what a combination. **Julia and Liz**- From Byfield to Penn, thanks for including me in the crazy adventures. I always ran hard and laughed hard when you two were around. **Girls X-C**- You are a special group of girls who I will always hold close in my heart. We accomplished so much and had so much fun along the way. I don't know how next year can even come close. Keep the traditions alive. **Les**- Talent, humility and a sense of humor are hard to find in the same person, but you exude all three. Harrison is yours next year. **Quigs**- It was never all about winning, it was about not accepting defeat before the race began. **Caroline**- I had so much fun with you this year. I don't know if I would have survived nine hours of traffic without you there with me singing along. **Girls Track**- I'm so proud of all of you. You proved numbers are nothing when you've got talent and heart. **Boynton**- You are the craziest bunch of girls ever and I have loved every minute of living with you. **Doug**- You made getting through the day easier and have been one of the only people to make me cry. I was laughing so hard. I'll never ask where the lint came from. **Ollie**- You're a bigger softie than you'll admit and a great friend. **Texas Jake**- I'll see you senior year. **Abu**- I can't begin to say all that you have done for me. Thank you for your knowledge, passion, caring, humor, respect, and readiness to share it all. Running will forever be a part of me because you planted the seed. **Wann**- You will forever be the voice inside my head questioning, challenging, and telling me to enjoy life; thank you. **Weir**- I'll never let the ugly, twin Helga get in the way again. **Brace**- It's been fun. **Hammy**- I'll be first in line for your book, "My Life in Ireland", a surefire bestseller. **ACP**- As an advisor, conductor, and friend you have shared so much and I have learned how much the little things matter. **Mr. and Mrs. O'Neill**- Your house was like my second home, thank you for always making me feel welcome and like part of the family. I will truly miss both of you next year. **Thank you**- Gabby, Maria, TylerC., TylerY., Spector, Kate, T-BAG, JessL, JackieW, Dante, Bear, Z, Anya, LindseyM., Hannah, Dan, Huebner, Ms. Rowe, Mr. Gerry, Doggetts, Quigleys, and Ms. Boulais- and finally, **Mike**- I hope that reading this 5, 20, or 50 years from now, that whatever we have become, you will know how much I love you. You amaze me in every way. You are my best friend and have made me smile and laugh more than anyone. My happiest memories are with you.

First of all I need to thank my family for being so good to me and always being there. As well as the Lebo's and the Peterman's for being my second families, and Scharlie for pushing me along. And my two girls **Kate Erin** my little sister, we've had some crazy nights, some where I didn't think you'd live to see morning, but you did. Since I'm not going to be there next year I hope I taught you well and remember this you are a beautiful, smart, and amazing girl. You deserve the whole world and someone to make you happy. Don't worry about fixing other people they need to fix themselves. Be nice to Kimmie, Floyd, and be to her like I was to you, or I'll come and beat you up. And **Kimberly Ann** the rules Katrine makes are crap. You call me if anything goes wrong or if she needs to be yelled at. Be a good girl and don't make any of the mistakes Kate and I made. And remember what Marc and Mark say no to. And both of you be good and remember no swearing in the kitchen, or one comes down for Kimmie. My Brookwood girls: **Nanners**. I'm kinda scared how it's gonna be without you, but at least I'll have one Peterman at school with me to make me feel better. I'll miss you at hockey games but mostly just not having you with me. Remember I'm just a text message away. **Jackie**, I'm so proud of you for everything you have done and where you are going next year. The last 13 yrs have been memorable, Mikey Moylan, B&T, & your birthday dinners. **Katherine**, Stripper cats, baby nephews and don't forget the birthdays! And the rest of my girls: **Laura**, baby girl we've been through so much and we came out alive and somewhat put together. I will always be here for you no matter what. We survived things I didn't think we would and I'm very proud of us. I love you. **Jess**, Thank goodness for you, the one good thing out of basketball season. I'm so happy we became friends. **Eblock**, be a good girl, don't do anything bad. Remember Shaun loves you and wants the best for you and truly cares for you. Don't be like Marc and leave Mookie alone. **Ashley, Nicole, & Sarah** thanks for being there for me. **You hockey boys + Garrett & Kelley**, thanks for listening to me complain most of the time, and Kel he'll always like me more than you. And then **You Marc Raymond**, My baby, you have made this difficult, but you mean more to me than words could possible describe. I value everything you have taught me, even though you might not think so. I think so differently from your influence. You've made me see what should be important in my life and that people shouldn't be taken for granted. I'm excited for what next year is going to bring us and I don't know what's gonna happen but remember that I love you with all of my everything and the barnacle is latched for life Bud.

Jess: NH with our boys, wendy's, the marsh; treash? we love and fight like sisters. I will always be there for you and i know you will be for me; i hope you always remember who you are and stay true to that because you are amazing. **Laura**: my entourage; full arsenal; BC-ISean: my seany sean; you are like a brother and one of my best friends even though ive learned never to go along with any of your plans. Ive covered your ass more time that i can count...u're on ur own next year...luv u and good luck getting ur ass kicked in the fall. **Jenna**: Thank you for putting up with my boyfriend and i have come to accept that marc and i are the same person. Remember that you are an amazing person no what some people say. Never regret anything you've done because it makes you who you are. **Mookie**: We've had our share of fun times...at johnson's...the baseball field...thank you for always being there to talk...you made me realize that i could do better. **Katie**: you are still the biggest heb! Remember who is hotter; "ive had two boyfriends the whole time and i still get none" **Daisy**: dyksey dukes; my lesbian soccer player **Clun** and **ang**: do it for levy! You guys both make me laugh very hard. **Danny g**, danny g!...do you put ur clothes in the microwave...nhaaaaw! **Barry**: where is the interior of the box? Clearly that is how they make the big marshmallows... thanks for keeping me awake during math...lets just leave it at that... **B.G**: you are my lab partner/boyfriend for life! I don't what you are going to do next year without me. And i dont know what i will do if ur physics book even gets into the wrong persons hands...canobie lake...did we even go there? **Devan**: you always make me laugh no matter what; remember that you are always going to have people who care about you **Al**: I'll always be your s.k; thanks for always makin me feel better **Brandon**: will you hold hands with me? We still need to work on our food control **Shaun**: beautiful and bitter-sweet u have faded into me and I into you. I couldn't be where i am today without you. i know that i will find no one else that can show me life in the same sense you can. You have taught me how to love others and how to love myself. Surprises and challenges await us but it will only make u stronger. Remember that we are perfect and everything will be okay. **To my family**: thank you for supporting me for the past 18 years. I couldn't have done it without you. **Dad**: Thank you especially for always listening to me **Panda**: its scary to believe that we aren't going to be seeing each other every day next year. For the past ten years ive always know that i had someone to turn to no matter what the situation was. We have grown up together and while it wasnt always easy...we did it together. I couldnt imagine being where i am today with out you. You are someone who understands me better than anyone...i mean who else knows was RB and LTMN are? It's finally here, the day that I have been wishing for. I haven't loved it here, I know that at times I've even hated it here, but in the end I will miss this place. I've learned a lot here, things that are important, things that I could have done without. But still, in the end it was all worth it. My time here seems like a blur, I still remembering coming here the first day of school back in 1999. The first night in Moody, in the basement, still resonates in my head, but now it's four years later and I am leaving behind the life I have grown to somewhat love. I'm leaving this quiet community to face a large and engulfing one. It's sort of scary, but it will be fun. I need a new challenge. But before I leave this place, I need to thank some people that have made an impression on my life. **Mom and Dad:** Thanks for sticking by me when times were tough. I love you. **ET:** I will always love you with all my heart, no matter what happens. **Ms. Ruhl:** Thanks for taking time to listen to me and help me deal with my challenges. **Mrs. White:** I will never forget what you did for me my freshman year. You showed me that someone did care. I will remember and someday I hope that I will repay the favor to someone else. You were here for me when I needed you most: you helped me survive. Thank You. **Mr. Wann:** You changed my mind on dorm life, I finally actually enjoy living on campus, all thanks to you. I appreciate all the support you gave me when I needed it. I hope that life will bring you happiness. **Julie G:** You Rock! You're a great friend. Come visit me at college. This summer will be one never to forget. **Michelle:** "Chubby-Bunnies"! Think of us when you're in the sun and I'm surrounded by snow. I'm gonna miss you and your smart wit. You were a good friend. **Alicia:** Keep rocking. Stay true to yourself. Don't let the bad guys ever get you down. To my **Boynton Girls:** Platapussy! Think of our "P" nights and late nights. Even with our little fights, it was the best dorm I ever was in. You all rock, to those girls left behind, keep it real you're nearly done. Time really flies by here. To **my teachers:** it's been a ride, thank you. To **Everyone:** Don't let others change you. In the end things will turn out okay even when things seem desperate. It's my time to go, I'm ready.

"The master dreams of a society twisted
One cult with everyone enlisted
Clinging to religion just to feel uplifted
Brother I can feel your aggression
Life on a whole is in question
We ignore what we don't mention
To err is human, but the road we're assuming
Stops all things from breathing and the flowers from blooming
Now I'm no historian, but I recall
That ALL Civilizations fall
We give up our control but we suffer from withdrawal
We learn how to walk now we're too proud to crawl",

47° N 122° W Driving 11,201 miles over a six-week period is thought to be torture by most people, but my family and I have made it a practice to travel across the U. S. by car approximately every 6 to 7 years to see the beauty and contrasts of our country and, of course, to visit colleges. Because Washington State is my home, we always include it as our final destination where I can spend time with my mother. Last summer my husband, Ed Wall, and sons, Chris and Thomas, and I visited 79 colleges, almost all them re-visits. Obsessive? A bit. I always return from these extensive college trips realizing how fortunate our young people are to have so many incredible college choices. Travelling as a family is a cherished experience. I especially enjoy the time that we can spend in the car where we have time to converse and stop whenever we please. In addition to visiting colleges, we enjoyed 4 major league baseball games. Re-visiting the baseball and football Halls of Fame in addition to taking a side-trip into the Canadian Rockies kept us all sane after our 18 hour days of visiting colleges and driving. - J. 45° N 73° W Where, short of Paris, can a New Englander go for a few days of that je ne sais quoi that even Starbucks can't match in a cup of coffee, grande on venti? My ardor for all things French dates to three years of my childhood that I lived in France, an Army brat abroad. I've returned for visits four times, once with my wife and twice with my wife and two daughters. Last March we discovered French Quebec, particularly the old French fortress town of Quebec

City high above the St. Lawrence River. We stayed in Le Chateau Frontenac, a chateau as magnificent as many on the Loire River. There, after our morning runs in new fallen snow on cobbled streets and the old ramparts cliffside to the Plains of Abraham, we savored frothy boules of café au lait like we had tasted nowhere other than France. Those cafés were my madeleines. To our delight, it seemed like France, but a Nouvelle France, a France with deep snows and bracing cold, Inuit and dog sleds, and a souvenir of our trip that reminds us daily of the differences: a Malamute sled dog that we named Chimook. Vive la difference! - B. Quigley

51° N 0° W It is a truth universally acknowledged that ever since 7th grade, I'd rather be reading Jane Austen. My first trip to Jane's England began with a reverie at her memorial in Winchester Cathedral and continued with travel through her beloved Hampshire. We boarded a bus whose driver dropped us in the middle of an isolated country road with gestured directions to Chawton Cottage. Being in her home was a dream from her table behind the creaking door that signaled guests arriving and brought an end to her writing to the delightful caretaking women and their running battle with the resident cat who snuck naps on Mrs. Austen's velvet chair. After a visit to her church, we retraced our steps and stood by a hole in the fence through which sheep rambled. Eventually the bus returned and the perfect day ended: "sweet to the eye and the mind. English verdure, English culture, English comfort, seen under a sun bright, without being oppressive." (JA) - S. Chase

52° N 8° W The journey began with an invitation to represent my country at the Marathon Canoe and Kayak World Championships in Ireland. I spent hours daily paddling up the Connecticut river with New Hampshire on my right and Vermont on my left and then down river with the States reversed. When it came time in July to leave, I was as prepared as I needed to be to head across the ocean to the beautiful Emerald Isle. My partner and

I were housed with a local family in the town of Shannon next to the Lock where the race was to begin. The evening before the race was to begin, we gathered at the boats for the ritual final preparations - wet-sanding, tightening bolts on foot braces, etc. This is usually a tense but pleasant time when we chat, joke around, support each other and basically fidget in an effort to handle pre-race nerves. What hadn't occurred to us was how far north we were. All of sudden someone caught a glimpse of a watch and pronounced, "Hey! It's 11:10". It was just dusk but it was 11:10PM. Off to bed we went hoping to fall asleep soon despite the brightness of the evening. The race began early the next day. The family we were staying with came out to cheer us on. It was a 27 mile race down the Shannon River. They followed the river, got ahead of us and stood on a bridge on next to each Lock dam we had to portage to cheer us on. I had never been particularly fond of my full name, Roberta, but to hear it spoken with an Irish accent and from people I barely knew was tremendous.

53° N 6° W I lived in Ireland while I was attending graduate school there. My "trip" was more of an internal one, living as a stranger in a strange land, an expatriate for a time. I spent my weekdays in the very James Joycean world of "dear, dirty Dublin"; a city that smelled at any given time of the nearby Irish Sea, coal smoke, and the cooking of malt from the Guinness brewery. My professors were brilliant. They could recite from memory anything, and expected we would be able to do the same eventually. Some of my professors were Jesuit priests. At the annual Arts Students' Ball in the spring, I witnessed my Irish history prof, a young priest dressed in drag as a nun, perform a striptease on top of a table. On the weekends, however, I lived in a world much more familiar to the poet W.B. Yeats, in a Georgian "big house," built by Anglo-Irish Protestant landowners in the days long before Irish independence. There were pigeons roosting under our eaves, and the farmer next door continued to plough around the blackthorn tree in the middle of his field so as not to disturb the fairies that lived in its roots. - M. 40° N 105° W Summer time for many years has meant work at various camps around New England. This past summer was different, however, as we were fortunate enough to have the time to travel and visit the American Southwest. Our trip began and ended in Longmont, Colorado at the home of KC and Kerri Cassell, two friends who worked at GDA and now work at the Dawson School near Boulder. During the three weeks we were away, we traveled to Vail, Lake Powell (where we rented a house boat for a week), the Grand Canyon, Hoover Dam, Las Vegas, Disneyland, Thousand Oaks (where we spent 4 days with my brother Peter), Phoenix (where we saw Barry Bonds hit the long ball off the Big Unit), Santa Fe and the Air Force Academy.

Our three weeks together gave us a chance to see another part of America and spend some time together before our boys get too old and go off on their own. Water skiing on Lake Powell in the depths of the canyon walls that form it was breath-taking. The vastness of the desert, the people that live there, the lonesome train whistle of the long freight trains and our individual shots with four different Disney characters will always remind us of the great time we had this summer. We also realized how fortunate we were to be together and how lucky we were to live in a place where we can enjoy the four seasons and the opportunities that New England has to offer. - B. Ceglarski

48° N 2° E I realize that many of you think that having grown up in Wisconsin I would have already seen it all that I would have no need to wander off to other states, let alone France. There was a time that I would have agreed with you, but now I can not make such a bold a statement. My eyes have been open. France is a land of wonders beyond one's imagination, a land where trains run on time, where waiters do not pester you as you sip a coffee (or gulp it down in my case), where a great bottle of wine leaves you with Euro still in your pocket, and where a game of Bocce Ball will spend an afternoon. It is a marvelous land with but one flaw...THEY HAVE A DIFFERENT WORD FOR EVERYTHING OVER THERE! - G. Brace

For a month and a half, my only possessions were those that I carried on my back. Without my pack and without knowing Spanish, the six weeks would've been difficult and not nearly as fun. Exploring Panama, I encountered a variety of flora and fauna beyond my comprehension. Fluorescent purple, yellow, and orange land crabs crawled through thick jungles surrounded by waterfalls, thousands of species of trees and plants, monkeys, frogs, iguanas, toucans, boas.

Beginning near Las Lajas, Panama, earth and water were the resources we needed (okay, and my camera). I cut coconuts with the native's machetes, picked avocados and mangos from the trees, and grilled my freshly caught fish for dinner. "Beach-hopping" through Panama, we finally arrived in Bocas del Toro, a friendly island where cars are non-existent. After snorkeling in coral reefs and zip lining through the rainforest canopy in Panama, we moved on northward.

Upon arrival to Costa Rica, I found myself in Puerto Viejo, "old port", an old fishing village on the Caribbean coast. Lying in a hammock, under the sun, I listened to the waves and the reggae rhythms filling the tropical air, I reflected on my day of trying to surf what seemed like tidal waves.

The adventure continued later as we arrived to the Nicoya Peninsula paying \$3 a night! Montezuma, Costa Rica is where the locals taught us to salsa and merengue the REAL way. A couple of miles outside of town, we stumbled upon a beautiful, hidden cascade with natural pools and its cliff-walls carved out through thousands of years-perfect for jumping. Sounds like a dream, doesn't it? - J. Rowe

41° N 12° E A few years ago Suzi, my wife, and I decided to get away and recharge by taking "Active Vacations." Our boys were away at college when we first took a variety of biking and kayaking trips to various parts of the world. These trips have been to Costa Rica, Belize, Caribbean Islands, Austria, The Czech Republic, Death Valley, Nova Scotia and Prince Edward's Island. But our favorite trip was bicycling across Italy. Our Italian trip included a mathematical influence, as we were to visit the Hometowns of Galileo, Leonardo da Vinci, and Michelangelo. Our trip began in the Old Roman town of Lucca, Italy, a fantastic town that has a 17th century wall built around it. We started by riding to Pisa and the West Coast of Italy. From there it was on to Vinci, where a museum houses several full-size models of da Vinci's work. The ride into Florence was crazy, as the Italians, who are usually very good about bikes in the country, are not so forgiving in the city. The Uffizi Gallery, Statues of David and the Science Museum, both located in Florence are outstanding. The Science Museum houses several of Galileo's original microscopes and telescopes. It even has one of Galileo's fingers in a glass egg. The story goes that, it is Galileo's middle finger and it is facing towards Rome. Leaving Florence, we rode (uphill) to the village of Fiesole. We then crossed the Apennine Mountains and on to Faenza, noted for its hand-painted ceramics. The next day, we rode into Ravenna, the last capital of the Western Roman Empire. The entire trip was around 350 miles. This had us traveling between 35 to 55 miles per day. This really is not that difficult. Riding a bike through different countries is the best way to go. Walking is too slow and riding in a car is too isolated and fast. Riding on a bike, you can smell the country, while you are not going too fast. We highly recommend Active Vacations, and are returning to Italy, this time to the Dolomite Mountains, again this summer. -D. Van Ness

35° N 139° E The mountain Inoyama loomed large during my whole stay on the island of Shikoku in Japan. Behind the nice paddies, beyond the train station, the mountain was there. Even the manhole grate for the town of Hangan included the mountain. A few Japanese actually ran up it each day, but rarely did visitors make the trek. My friends told me that Americans never climbed it. "Too hot, too steep, too far," they said. I was contrary: I would cap my visit by climbing Inoyama in search of the footprint of Ojomo, the mythical creature who made the mountains of this region. Temperatures that afternoon reached 90°F; the humidity was about 85%. The mountain path was a series of steps, lots of steep steps, carved into the slope. Near the top, the path flattened out and wound around to the peak, giving rest to my legs and ease to my lungs. I found no footprint, but communed with the spirits of the mountain top. I had achieved my goal. Inoyama and I were one.

Led by three captains, Laura Ellison, Gwyneth Stokes, and Julia Tataronis, the Governors time and again battled the weather, challenging courses, rival runners, pain and their own minds to run their best. Finishing with a strong 12-0 record, they finished 2nd of 13 teams in the ISL Meet, and 2nd of 21 in the New England Division II Championships. Lesley Clunie placed first in the NE meet and broke the course record set by C. Shearman (98). Hannah Sylvester won the JV race at both ISL's and NE's. All-League Honors were awarded to Clunie, Ellison and Tataronis. All-New England Team Honor was awarded to Clunie. At the end of the season banquet, MVP went to Clunie and the newly endowed Coach's Award, named after Coach Abusamra, went to Anya Ravitz. After the third undefeated season in a row, the girls hope to continue the tradition next year, despite the loss of four year letter winners Ellison and Stokes, and three year letter winner Tataronis. The 2003 Lady Goves will be led by captains Quigley and Clunie.

3rd: C. Noblitt, T. Youngblood, S. Corbett, J. Smith

The 2002 Men's Varsity team finished the season with a solid 6-9 record in the ISL. Led by senior co-captains Sean Corbett and Tyler Youngblood, the team consisted of a mix of veterans as well as some new recruits. Against the stronger teams in the league, they ran courageously, and against the weaker teams they ran with confidence and strength in victory. Highlights of the season included an excellent team effort in the race at Belmont Hill: though it resulted in two losses, the team fought hard on a monotonous, circuitous course. While the team placed 12th out of 16 teams in the ISL Championship race at St. Mark's, they rebounded in the Division III New England Championship race held at Brooks. They earned a solid 9th out of 19 teams, and several runners set personal records. At the Varsity Banquet, Andrew Huebner was named MVP, and Tyler Youngblood was the recipient of the first Abusamra Coach's Award, an honor established this fall in the name of coaching veteran David Abusamra.

2nd: B. McLain, D. Berry, K. O'Neill, C. Sillari, L. Dipple, G. Petraglia, K. Wroblewski, J. Wailes, J. Long, S. Boulais

Despite their 6-9 record, the Lady Gavs had a season filled with highlights. Included among them were a 3-0 win over St. Paul's and a 4-1 win over the Exeter (Exeter has more girls than we have students). It was a tough season with many injuries; but despite them the team managed to rally and win three out of the final four games. Much of the success at the end of the season can be contributed to the increased strength of the younger players, as they stepped up and proved themselves. The young team (including five freshmen) bodes well for next year. At the banquet Co-MVP honors were awarded to Kerri O'Neill and Amanda Webb. Kerri and Amanda were also voted as captains for next season.

Led by captains Tim Johnson and Pat Monigle, the Governors had a fun season, finishing with a 7-7-2 record, just missing a playoff spot. Point leaders included Kevin Kapstad '05 with 7 goals, 3 assists, and 17 points; Jarid Siegel '04 posted the same numbers; and Christian Smith '04 had 6 goals for a total of 12 points. Highlights of the season included winning the Navens-Eusden Cup against Brooks with a score of 1-0. End of season honors went to Pat Monigle (MVP), Eric Schroeder (Eusden Unsung Hero), Jarid Siegel (First Team All-ISL), Kevin Kapstad and Pat Monigle (Second Team All-ISL), and Tim Johnson (4 year letter winner). Memorable moments include: "Where's the castle Blacky?" and Nelly's Back of the Bus Tyrade.

After opening the season with a loss to Roxbury Latin (who went on to an undefeated season and the New England Championship), the Governors won the rest of their games to finish with a 7-1 overall record. A defining moment of the season was the tremendous tackle Robert Francois made to break up a pass in the second game of the season against BB&N. Ironically, the Governors were a better team in many ways than last year's team that won the New England championship. During the season the defense allowed only 95 points (ranking third best in the ISL), and scored a total of 227 points (ranking fourth best in the ISL). MVP Brian Morrissey '05 scored a total of 118 points, second best in the league. Coaches' Award went to DJ Connaughton '03. The team also had six All-League players and six honorable mentions. In Outdoor Program many new faces joined the ranks providing us with new experiences and unforgettable memories. Led by returner Mr. Weir and the equally knowledgeable Mr. Rokous, our adventures led us all around the area- from the quiet back road paths of the New England forests to the brimming seas of Gloucester's harbor. From rock climbing alongside giant cliffs to sea kayaking through crystal seas. From mountain biking through the autumn leaves to the challenges of the ropes course. Our new freshmen this year were Karra Emmy and Yulin. Their wonderful personalities always brought flavor excitement, and excellent freshmen representation to the group. Our only soonmore, Osaka, always had a quiet curiosity to her allowing her to constantly answer any questions and question any answers. Our juniors were made up of two more new faces, Jake Rogers and Laura Pritchard, and our returning recruit Andrew (More appropriately named "Samuel"). These juniors provided leadership and knowledge to underclassmen where moments of fear or hesitation might develop. And senior Mike O'Neil returns for his second and final year noting that he has made the program better than when he found it. Together this band of young adventure seekers and thrill seekers braved the elements and tested the limits. When all is said and done, Outdoor Program was not a club, but more like a family.

Led by the world renowned Master "Kung Pow" Ngyuen, the GDA Martial Arts squad enjoyed yet another season of intense competition and athleticism. The fearless team faced competitors flown in from all over the martial arts capitals of the world, such as Hong Kong, Taiwan, and Beijing. GDA's skilled group battled with the highest caliber fighters known to the world of martial arts thanks to the brilliance and dedication of Master Ngyuen. All forms of the sport, ranging from karate to kung fu were carefully studied and executed. Students started with the basics, such as low kicks and defense moves and later progressed to more complex moves, which eventually involved using special weapons. The season culminated with a demonstration of their abilities for the entire GDA community, with the premier of a video at an all-school morning meeting. GDA's elite martial arts crew proved to be yet another athletic and talented group of up-and-coming future fighters. Hi-ya!!!

The Varsity Girls' Basketball team enjoyed a successful season lead by captains Meghan O'Malley and Jessica Long. A young and determined team made steady improvement throughout the season, ending up 7-5 in the ISL and 8-10 overall. Perhaps our most impressive and rewarding contest was against the un-defeated Brooks School, capturing the win 52-47. That game demonstrated that as a team, we could come together and accomplish any task we put our minds to. Some individuals who shined throughout the season were Meghan O'Malley and Julie O'Shaughnessy as they both were recognized at the Class B New England Women's All-Star Game. Meghan was also chosen as a member of the All-League Select; Julie received Honorable Mention. All of the ladies should be commended for their determination, hard work and excellent sportsmanship as they took on a challenging schedule this winter.

The Men's Varsity Basketball Team achieved another commendable season full of hard work and sportsmanship. Last season's squad was joined by many underclassman, including Ty Tucker, Ramone Tejada, and Raul Cruz. Though the Govs struggled with a final record of 10-25, they significantly improved their offense and defense during the season. Led by junior MVP Nick Tomaino, the Govs managed to win some close games against Middlesex and St. Pauls. Junior captain Elvinson Corporan and Nick Tomaino did an excellent job leading the team, which is a promising sign that next year's team will be strong and competitive. The passionate perseverance and drive possessed by every player made all the difference this season. Taking the court each game with integrity and pride, GDA couldn't ask for a more devoted team. Congratulations on a great season and good luck next year!

"Hi, I'm your Uncle Skip." The GDA Women's Varsity Hockey team doubled its wins from a season ago and finished 8th place in the ISL with a 10-12 record, and 8-5 against Division II opponents. Four players (Jen Arno, Shannon Falvey, Lexie Heersink and Eden Gudonis) played four years of varsity hockey and now head off to new challenges at the college level. Two year captains Arno and Falvey did an outstanding job leading this young team to success. Their guidance and positive attitude made for a great experience both on and off the ice. In her career in the net for GDA, Arno faced 2852 shots. End of the season honors went to Kelsey Johnson for MVP (42 points), and Kerri O'Neill for Coaches Award. Honorable Mention All-League Players went to Johnson, Erin Connors (37 points), and Torie Allen. The key to success this season was increased goal production and good team defense against Division II opponents. The team finished two places out of post-season play and should be proud of all they accomplished during the year.

The puck boys made the ending stanza of the cold winter season exciting for the entire GDA community. Led by the six seniors, Marc Bastarache, Marc Borden, Taso Kapernekas, Barry McLaughlin, Andy Shealy and Jan Tabak, the Gavs won exciting games over Lawrence, Nobles and BB&N making it to the playoffs for the first time since the 1991-1992 campaign. The Governor Dummer Academy men's hockey team suffered a 6-2 loss to perennial power Cushing Academy in the quarterfinals of the New England Prep School Division I hockey tournament on Feb. 26. The team finished with a 15-8-1 record, and 11-4-1 in the ISL Keller Division, for second place in the league. End of the year honors went to Bastarache for MVP; Wasson Award winner (Unsung Hero) was given to Jan Tabak; and All-League Honors went to Marc Bastarache, Brian McGuirk, Don Wiczorek and Kevin Kapstad. On an ending note, Coach Kravchuk says, "Our seniors deserve credit for all of their effort and leadership and I hope that our returning guys will be able to build on the success that we have enjoyed this year."

Led by captains Kelsey Shannahan and Kendra Wroblewski, volleyball had another successful season, finishing with a 12-3 record. Highlights included winning against Newton Country Day after a loss to them earlier in the season. The season was capped with a huge victory winning the EIL tournament and earning a spot at New England's at Gunnery in CT, where they placed second. At the end of the season banquet, honors were bestowed upon Annika Brown '04 for Most Improved Player; Kendra Wroblewski for Most Valuable Player; and Coaches Award to Gabbie Petraglia. Captains for next years team are Michelle Kinzie and Emily Moore. A huge thank you and good luck to graduating seniors Brooke Eaton, Allison Tsao, Gabbie Petraglia, Claire deLacviver, Maria Knapp, Kelsey Shannahan, Kendra Wroblewski, and three-year manager Susie Valverde. GDA's wrestling team experienced what one may call a "rebuilding year" during the 2002-03 season. Joined by many newcomers to the sport this year, GDA faced many challenging matches that unfortunately resulted in frequent losses. Led by MVP and captain Garrett Lyons, the wrestling squad had one amazing victory to bring their record to 1-16. Outstanding efforts by Ryan Becker, recipient of the Heb Evans Award, and Tim Mauritz earned them 5th and 6th places in the Graves-Kelsey Tournament. Next year's wrestling squad promises to have a more successful season due to the hard work and determination displayed by many of the underclassmen this year. Good luck to next years team and their captain, Tim Mauritz!

Led by Olympic Champions Berton and Scheintaub, the Governor Dummer Academy Ski Team managed to finish another season undefeated. The arctic temperatures were no match for the spirit of this year's mighty squad. Throughout all these obstacles, including several broken bones, Ski Club maintained its competitive edge and managed to win all of its matches and remained the undisputed New England Champions.

Varsity Dance is extremely proud of our winning season. We fought hard and left our competitors in the dust, despite the young ages of most of this team's members. Watch out, GDA, these new recruits have natural skills that will only improve over the remaining winter seasons. The highlight of our season was our final performance that included pieces from genres of dance ranging from modern to hip-hop. The fun this group of girls had all season and the energy and unique talents each dancer brought to class every day allowed this year's show to be the best in Governor Dummer Academy's history of dance shows. We're proud of our accomplishments, none of which could have been possible without the expertise of our dance instructors Susan Atwood and Christina Dee. We were lucky to have had the opportunity of being taught by such professionals. Good luck to all of the girls next year. We will miss you. Try not to cry over the absence of Libby's captivating box dance and Erin's happy feet. We are moving on the bigger (but not necessarily better) black boxes. Much love, Libby and Shedd

The 2003 season was exciting and progressive for the Governors Varsity Softball Team. Led by varsity captain and MVP Shannon Falvey, the girls achieved a winning record of 10-4, a commendable performance in a highly competitive and difficult league. Throughout the season, each team member worked hard to strive for excellence and perfection in their game. On and off the playing field, the strong bond of loyalty, trust, and hard work among the girls allowed for their performance on the field to truly convey their talent and passion for the game. Each game was played with intensity and perseverance. The Govs managed some well-deserved defeats against top league teams including St. George's. With five ambitious freshmen joining the team, including left-handed pitcher Emilie Arthur and All-League catcher Erin Connors, the squad was able to attain fourth place in the ISL, beating their previous standing from last year. Needless to say, the girls are looking forward to improving this standing in the years to come, and with the talent and enthusiasm present in all the players, it is completely possible! Congratulations on a successful season!

As the 2003 season comes to an end, the varsity baseball team has a lot to be proud of. With a winning record of 9-6, the boys have made tremendous progress on and off the field. Their devotion to the sport and passion for the game has been proven in more ways than one. Captains Brian McGuirk and Allen Cooper led the team to perfecting an aggressive infield and outfield, as well as consistently solid offence. Swinging hot bats all season and turning some crucial double plays were key to their successfulness. Next year's team will miss departing seniors Brandon Bates, Marc Borden, Chris Ebinger, Derek Brusin, and two year captain, Allen Cooper. Despite these losses, next year's team promises to bring new talent from underclassmen. Driven by motivation and willpower- the Gov's are ready to step up to the plate and take the league by storm!

The Men's Lacrosse Team struggled this season after the loss of ten seniors from last year. The team's success was further hampered by the injury of captain John Leonard '03, who was unable to play for the majority of the season due to an ACL tear. The skills of goalie Chris DiGiuseppe and his defense were tested, as the Red Dogs saw a lot of action in their end. Although the team rallied together for several big wins against BB&N, Roxbury Latin and St. George's, their record does not demonstrate their level of ability or level of enthusiasm. Next year's team promises to be a strong and unified group that is sure to return to, and maybe even top, the winning record of the 2002 Red Dogs.

The 2003 men's track team had an outstanding season, and a great improvement from last years record of 4-7. The team compensated for graduation losses through the acquisition of new young talent. Many athletes were a part of this New England Division III Championship team, all of which contributed greatly to this spring's performance. Standout strengths of the team included Rob Francois '04 and Dante Demeo '04. Four-year letter award winner went to Sean Corbett. His leadership as two-year captain will be sorely missed next year. Next year's team looks forward to defending their New England Title and acquiring the status of number one team in the ISL too. The boys have their work cut out for them, but with all the young talent it looks as though they're up to the task.

One thing that the women's varsity tennis team learned this year was that winning isn't everything. The elite team composed of freshman Becky Roche, sophomore Ruth Splaine, juniors Sarah LeBlanc and Katherine Paul, and seniors Eden Gudonis, Kate Hugo, Jackie Ross, and Erin Shedd worked hard and exhibited an admirable team effort throughout the season. Led by supportive Coach David Moore, the small team played each game with passion and perseverance. With an improved record of 6-8, the girls earned some commendable defeats against Brooks and St. Paul's. They also earned 13th place in the New England tournament. As four of the players graduate, the young team will be challenged to strive for continued excellence - a reputation the girls have earned as a result of their sportsmanship and class. Congratulations on a great season and best wishes for the 2004 season! Have fun!

Tom Mestura 60

As for Captain Dave Spector, it's my sense
He is wise to seek Far West horizons
Out in Pomona,
But because of Daytona
Speeds, he now needs a new license!

His ball toss is known for its lowness,
And team jackets and frappes are the bonus
Whit seeks from this team
That and his dream
Of mixed doubles with Eden Gudonis!

Inho Yoon, a confirmed "back-courtah,"
Has now learned to volley - well, "sorta!"
And all those he plays
Note with amazement,
they've not been said one word ta!

Like that other Dempsey, Pat's a hitter!
A hefty lefty, he'll smack every "sitter!"
Teamed with Brad he brought troubles
To St. Paul's in doubles;
And with Tom, oh the battles were bitter!

Andrew Weinstein I shall now flatter:
"Best strokes" and a consummate "hatter!"
If only his feet
Weren't so stuck in concrete,
And he didn't make quite so much chatter!

Though his second serve's weak, our Toddo
Hits volleys just like he oddo!
The POTENTIAL is there,
As is his hair,
Both of which he's got a loddoo!

That same Tom gives opponents heaps
Of trouble - the way he keeps
The ball in play
And scares the day-lights
Out of them all with his "bleeps!"

What makes our Brad most mad?
Overheads he misses! This "laddo"
Is so tall end-to-end
He can hardly bend!
Ice cream stands are his El Dorado!

Tyler Collins has tasted the gravy
After three years on the JV!
Because "sets won" were rare
In our match against Thayer,
My reports on his win will be "rave-y!"

Yoga

The first season of the Yoga Afternoon Program was a very successful and relaxing one. As a new and different alternative to sports, drama, or community service, yoga allowed students to unwind outside the classroom. Under the instruction of Ms. Bromley, a group of about twenty participants were introduced to a variety of relaxation techniques, energizing stretches, and calming meditations. As the season progressed, the routines and sets became more complicated and challenging. Members ranged in ability from beginners to "yoga addicts". Each individual brought their own unique energy and perspective to the program, creating a diverse group that was able to learn much from one another. Yoga became more than just an afternoon activity for the participants; it became a time to relax and reflect on the sometimes hectic schedule that GDA students follow on a daily basis.

"Join us", cries the cast of Pippin, as they invite you to accompany them on a marvelous journey of self-discovery. As the curtain opens, a troupe of actors is seen performing magic tricks, enticing the audience to listen to their tale of the "extraordinary" Prince Pippin. The actors, guided by the two Leading Players (Doug Turnbull & Laura Liacos) offer to help him accomplish his dream. During his quest to find something "completely fulfilling", Pippin employs the advice of his father Charlemagne (Mike O'Neill), his step-mother Fastrada (Alex Shalvoy), his grandmother Bertha (Kate Shanahan), and his love interest Catherine (Jillian Vavlitis). The magic and music are aided by the wonderful set that surrounds the cast. Joe Repczynski and the Tech team have transformed the auditorium into an assortment of magnificent Roman scenes. As director Mr. Wann said, "The audience will come and be amazed and shocked by the performance that we will give them." So come and "join us" for an entertaining evening. ~ Kate Shanahan '04

2003 ALUMNI ASSOCIATION AWARD

To a senior who has shown community spirit and concern within the Academy and has displayed qualities of awareness and humanity.

The 2003 recipient of this award has been a remarkable presence on this campus for the last four years. Her teachers use words such as kindness and compassion to describe and to underscore her total commitment to GDA.

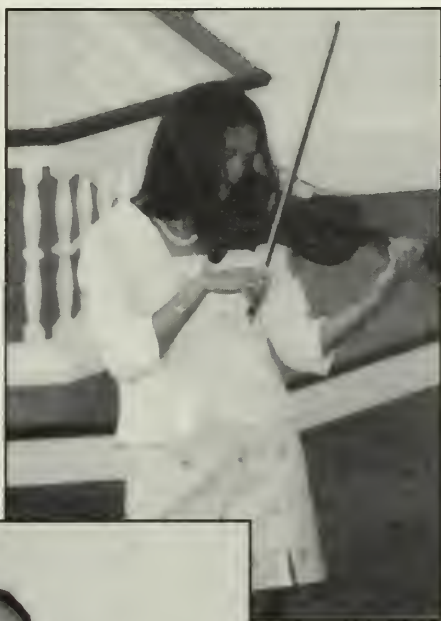

She is an inspiration - intellectually curious, enthusiastic, unselfish and absolutely loyal to her friends and to her school. She is truly

deserving of this most coveted award. It is a great honor to present the 2003 Alumni Association Award to:

MORSE FLAG

The Morse Flag was first awarded 90 years ago at the 150th Commencement of this School on June 9, 1913, and it has been awarded each year since that time to the senior whose record in all respects has met with the highest approval of the faculty. According to the Trust established by the late Rev. Glenn Tilley Morse, a long-time friend and Trustee of the Academy, a new flag is provided each year in order that the old flag, which has flown over the School during the past year, may be given to a member of the graduating class.

That the year's recipient of the Morse Flag is a scholar of the highest order is incontrovertible. He has been a fixture on the high honor roll since he enrolled at Governor Dummer. He has earned A's in the seven Advanced Placement courses he has taken and has incorporated a diverse blend of electives into his program of studies. His standardized testing scores are off the charts. But these achievements are only outward manifestations of his intellectual brilliance. One of his English teachers said it best when he wrote in a year-end comment, "He is constantly looking for opportunities to confront new experience, new information and to test ways of ordering it, making it comprehensible through talk, through argument and negotiation through mathematical reasoning, through artistic expression and through writing. Too often, young scholars want quick answers and unambiguous solutions. I know, you have cultivated a taste for complexity, in fact you are my irony tester. When you see manipulation, prevarication or mendacity, you light it carefully and then either walk away around it or begin to laugh. That re does not slip by you. Your dedication and your intelligence, I believe, will make any teacher you have think he or she is brilliant." Our honoree lives comfortably in the world of ideas. In fact, it is his intellectual playground. It is not unusual to hear him at a lunch table debating the origin and nature of matter in the universe or to see him cultivating his French language skills during campus walkabouts or observe him pondering a new approach to a complex computer programming challenge. Yet as much as his extraordinary intellect sets him apart from his peers he has become the heart and soul of our community. Arguably, no other student is more genuinely respected by his fellow classmates or the faculty at large. He is kind, thoughtful and unpretentious. He is incredibly generous with his time. He routinely postpones starting his own work in order to help others with their homework. Teachers regularly call on him for assistance in the area of technology or audio video support. The incredibly diverse and relentless programming that occurs on a daily basis in the Performing Art Center works in a seemingly seamless fashion in large part due to his presence. He is a technical wizard with a master craftsman's expertise in lighting design, sound, video and stage construction. It is hard to conceive anyone being more efficient, competent, reliable and accommodating. He spoke at our final chapel service of the year and in his all too brief ten minutes remarks, we were privileged to have one final window into his wonderfully self-deprecating sense of humor, his modesty, his loyalty, his passion, his wisdom and his devotion to this school. He has gracefully served this community in a myriad of ways and in the process has become a community treasure.

It is with respect and admiration that I present on behalf of my faculty colleagues the 2003 Morse Flag to:

Amrit Misra

THORNDIKE HILTON CUP

The Thorndike Hilton Cup was established by the Class of 1919 in memory of their classmates, Thorndike Hilton. It is awarded each year to the ranking scholar in the senior class.

Her advisor describes this young woman as "a keen reader across disciplines and a meticulous analyst and critic both in writing and in conversation who is increasingly articulate as the level of discourse rises." One need only consider the impressive range of courses in her repertoire from accelerated Spanish to BC Calculus to AP Biology and AP English to recognize that she is a student who loves ideas and their exploration and experimentation. In her four years, notes her advisor, "she has quietly cultivated interests motivated by a genuine desire to learn and has nurtured relationships motivated by sincere affection and regard." She won a 2001 Excellence in Education award from the Newburyport Five Cent Savings Bank and she earned commended status in the National Merit Scholar Program. The recipient of the Yale Book Prize as well as a Moody-Kent award winner, this ultimate concert-maestro finishes her symphonic reign at Governor Dummer with the coveted Thorndike-Hilton cup.

The highest-ranking scholar of the class of 2003 is:

Allison Leigh Tsao

ACADEMY PRIZE

There are two prizes which are awarded by vote of the entire faculty: One is the Morse Flag, awarded earlier this evening; the other, The Academy Prize. Upon retirement of Headmaster Ted Eames in 1959 the underclassmen of the Academy endowed the already existing Academy Prize so that henceforth at each commencement it could be given in honor of Edward W. and Eleanor K. Eames so that the qualities they so deeply prized might be prized in turn by future and succeeding classes. Those visiting the Phillips Building will find inscribed on the plaques outside my office door, in the entry-way of the Cobb Room, the names of all Morse Flag winners, reaching back to 1913, and the winners of this Academy Prize from 1931.

This young man has been a member of the GDA community for four years. During this time he has earned the respect and friendship of students and faculty alike. He is at the core of his class because of the affection, dedication and loyalty that he has shown for the Academy. He is a scholar, a singer, a leader, a role model, a worker, a giver. There is hardly an aspect of our school that has not been touched by his presence. His work ethic, moral conscience and personal investment are clearly visible in the myriad of leadership positions that he has readily assumed. He has worked tirelessly for the Admissions Office as a Head Tour guide conducting tours as well as managing major events. As a member of the Discipline Committee, he endeavored to honor the standards of the school and still take into account the individual circumstances of the student in front of the committee. His senior year has been consumed with a role as Co-Editor of the Milestone's organizational skills would rival the best CEO. He has worked diligently to create a yearbook that truly represents his class and highlight their contributions to the academy. In addition he has served as Co-Head of Harvard Model Congress, a FLIP leader trained to facilitate the ropes courses, a member of the Commencement Committee, a Social Olymps volunteer and has recently been elected by his classmates to serve as their class agent. His teachers applaud his devotion to his studies that is always accompanied by his great sense of humor and a signature smile that brings sunshine to their classrooms. His positive attitude, his unselfish commitment to the school, his kindness and respect towards others, his sense of responsibility, his contagious enthusiasm, and his work ethic all speak to the essence of the Academy Prize. He truly represents our motto "not for self but for others" and we have been blessed by his energy and dedication. He is an integral part of our community and truly embodies the cardinal in spirit, word and deed.

With respect, appreciation and pride the Academy Prize is awarded to:

Daniel Joseph Guyton

PETER W. BRAGDON HEADMASTER'S CUP

The Headmaster's Cup is given to that senior who, in the judgment of the Headmaster, has best served the mission of the School.

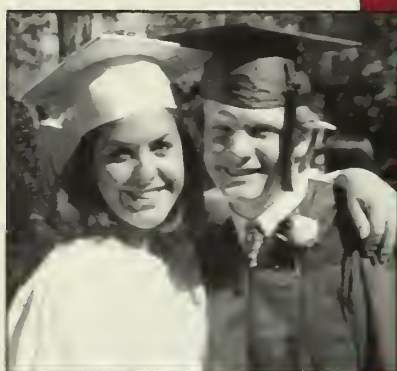

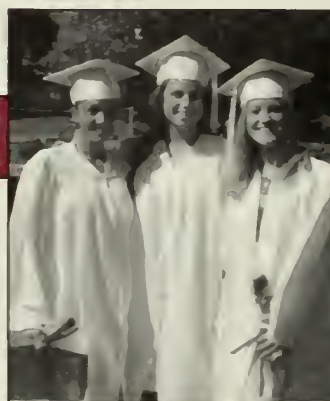

The Taoist philosopher Lao Tse once said that: "a leader is best when people barely know he exists.... But a good leader who talks little when his work is done and his aim fulfilled. They will all say 'We did this ourselves.' This year the Academy had a leader whose vision, strength of character and capacity for good deeds reached every member of our community. He has led by example and has surely moved us to new places. He has undertaken new experiences and opportunities eagerly and enthusiastically. He has approached issues and challenges with an open mind and an open heart. He deftly combines pragmatism with idealism in his worldview. He deftly and gracefully has worked to find creative solutions to difficult problems. He has superb political instincts but is guided first and foremost by humanistic concerns. It would not be entirely accurate to say that to say that our honoree's journey through GDA was exactly low profile. To the contrary, he has delighted audiences with the full range of his thespian skills, fortified our instrumental groups with his musical talents and graced our stage with his vocal abilities. His presence and credibility helped to set a positive and affirming tone for our morning meetings and chapel. All of this said, his style and demeanor are deftly understated and self-effacing. His best self was always in evidence. He helped us to see what our own best selves can be.

It is a privilege to announce the winner of the Peter Bragdon Headmaster's Cup is:

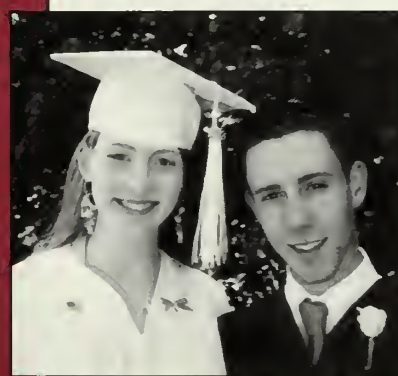

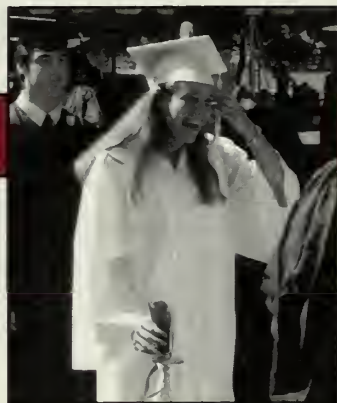

Michael David O'Neill

PETER MARSHALL FRENCH MEMORIAL TROPHY

The French Memorial Trophy has been given by his sister in loving memory of Peter Marshall French. It is inscribed each year with the name of a student at any level whose perseverance, sportsmanship and generous spirit on the playing field, represents the highest standards of committed participation and fair play. An inscribed scroll accompanies the trophy.

A letter winner in three sports, our recipient is a truly dedicated athlete, an individual who chooses to play for the love, not the glory, of sport. When she first arrived at GDA, she had never played Field Hockey or Ice Hockey. She worked tirelessly to master the skills of these sports and become the best athlete she could be. Whether it was a practice or a game, she never gave anything but her best effort and always with a characteristic smile. She was admired as a teammate and respected for her physical and mental toughness. Her character, courage, and enthusiasm make her a most deserving recipient of the Peter Marshall French Memorial Trophy.

Megan Ann Lagasse

BARRISKILL PRIZE

Established in 1960 by the students of Governor Dummer Academy to honor the memory of faculty member James M. Barriskill, this prize is awarded annually to that member of the senior class who has made an outstanding contribution in the field of music at the Academy.

The Class of 2003 contains many fine musicians. This year's recipient of the Barriskill Prize for Music stands out among her peers; she is much more than just a truly fine musician. Talented, multi-faceted, intelligent, organized, inspirational, caring-to-a-fault, and responsible are some of the qualities that help to distinguish this artist. Her instrumental conductor and teacher considers her to be the Academy's orchestra's finest concertmaster ever. This is high praise because GDA has had a number of exemplary concertmasters over the last quarter century. Leading by example in performance, practice and achievement, she has organized the instrumental music library and the ensemble room, conducted rehearsals, mentored her classmates and provided the community with many memorable performances. Recently she was honored by being selected as the youngest violinist for the Cape Ann Symphony Orchestra. This prize honors a remarkable performer who has made beautiful music and has influenced Governor Dummer Academy for good.

MERCER ART PRIZE

In 1982 Kittie and Tom Mercer made possible the Mercer Art Prize as a means for recognizing talent and performance in the field of art. It sets a demanding standard: Exceptional creativity and originality by a senior who has earned honor grades in available Studio Art and Art History courses along with intentional efforts to achieve artistic awareness and proficiency.

Although he only joined us in his junior year, his contributions to the Arts at Governor Dummer have been voluminous. He has proven to be a most creative and resourceful student. His "voice" reflects an intellect that is driven to better understand his world. He is a confident, independent thinker who continually attempts to produce work that is distinctive and evocative. His sense of humor, his periodic outrage, fits of whimsy, his strong beliefs are reflected in the powerful and moving imagery found on his canvas. To be a success in the studio one must move boldly down unexplored paths, recording observations of the journey. Our honoree is an individual who has chronicled his journey admirably....the results have been impressive. This year's recipient of the Mercer Art Prize is:

Philip J. Anderson

THESPIAN AWARD

The Thespians Award was created in 1971. It is awarded for meritorious work in the field of dramatics, for inspiring participation, for providing leadership and developing theatrical knowledge and abilities.

The Irish poet, William Butler Yeats, wrote a poem called "The Fascination of What's Difficult." It is a poem about working in the theatre. He complains: "My curse is on plays that have to be set up in fifty ways." If you have never practiced saying a line over and over for weeks only to find that when you step on stage you forget it, if you have never miscut a board, missed a sound cue, missed a light cue, frustrated a director or infuriated an actor, then you have never worked in the theatre." Our recipient is always working in the theatre. She has that "fascination of what's difficult." She is creative, dependable, long suffering, dedicated and talented on both sides of the lights. All who work or perform in the Performing Arts Center know, feel and appreciate her presence. This year's recipient of the Thespians Award is:

Michelle De La Garza

EDWARD J. RYBICKI PRIZE

The Edward J. Rybicki Prize is named for and awarded in memory of the long-time GDA teacher and advisor to the Governor who embodied the qualities of selflessness, sense of humor, responsibility to the welfare of others and the courage to live by a strong set of personal beliefs. This prize is awarded to the student making the greatest positive contribution to the school newspaper, The Governor over the past academic year.

This past year, the Governor has experienced a proverbial renaissance, under the able leadership of the two student editors. The paper has been published a record-breaking 12 times since September. In those issues, articles have achieved what every good piece of journalism should. They have informed, provoked thought, questioned, entertained and amused. Without the winner of this year's Edward J. Rybicki Prize that achievement would not have been realized. She has worked tirelessly day and night, after school and on weekends, pushing herself and the staff to new heights. She has learned how to layout and format pages, edit and proofread articles, do layouts and write editorials. She has wrestled with topics of journalistic integrity and first Amendment issues. In short, with her co-editor she has been the heart and soul of the paper and the Governor this year. The winner of this year's Edward J. Rybicki Prize is:

Kaitlin Moira Lang

GOODWIN ATHLETIC PRIZE

The Goodwin Athletic Prize, established by Mr. Fred H. Goodwin of the Class of 1916, a Trustee of the Academy from 1916 to 1949, is given to that senior boy who, by his athletic achievement and sportsmanship, has brought the greatest honor to his school during the past year.

This year's recipient is the consummate team player — dedicated, focused, modest and reliable. The captain of the football and lacrosse squads, his presence inspired his teammates. Even when sidelined to injury, he remained an invaluable member of his team and the acknowledged leader. His commitment to sportsmanship and fair play is equaled only by his desire to help his teammates reach their potential as athletes. He won All-League honors in two sports for the quality of his play. This evening we celebrate his athletic achievement and the sterling quality of his character. This year's recipient of the Goodwin Athletic Prize is:

John F. Leonard IV

ANNE MARIE MURPHY ATHLETIC AWARD

The Anne Marie Murphy Athletic Award is given annually at Commencement time to that senior girl who, by her example and her achievement in athletics, has brought the greatest honor to her school during the past year.

Our honoree has accomplished an impressive list of accolades. Twelve varsity letters in four years, she has received ALL-LEAGUE recognition in field hockey, ice hockey and softball. Chosen captain for all three seasons, for two straight years, speaks to the esteem she commands from her peers. In defeat, she is always gracious and magnanimous. In victory, she is always humble and respectful. She leads by example. Versatile athletes of her caliber come along infrequently. This year's recipient of the Anne Marie Murphy award is:

Shannon Leslie Falvey

CUMINGS PRIZE

The Cumings Prize was established by the family and friends of the late Fred T. Cumings of Troy, New Hampshire. It is awarded annually to a student who has shown perseverance, hard work and good spirit in contributing to the welfare of the School.

In a quiet and unpretentious fashion she has made a significant impact on our community. Not seeking or expecting any notoriety, she commits to causes because she cares. She has helped to create a wonderful new tradition with the Soups On Project. This year's event raised over \$2,000 for Cape Anne Families. She has put countless hours into the Milestone as an editor effectively establishing a high standard for her successors. She has been an active participant in our afternoon program playing soccer, hockey, track and, most recently, leading the goal for lacrosse. She does all this while challenging herself and her teachers in the classroom and never settling for anything less than her best. She is her own toughest critic. She is a role model for younger students and a trusted friend to many. This year's recipient is:

Lindsay Myra Clunie

The Gaffney Prize, established in memory of Robert A. Gaffney of the Class of 1940 is awarded to that senior who, in the opinion of the faculty has been most considerate of the rights, opinions and sensibilities of others.

The Sarah Elen Avalon Award is awarded to that senior who through hard work, determination and strength of character, has worked to develop his or her potential to the fullest and in so doing, has been a true credit to Governor Dummer Academy. Special Prizes

Milton L. Dodge of Newburyport was a member of the Class of 1911, father of an alumnus, devoted friend and neighbor of Headmaster Edward W. Eames and a generous benefactor of the Academy. He made provisions in his will to provide for prizes to be awarded to members of the Governor Dummer Senior Class whose perseverance, courage, initiative, sense of responsibility, loyalty, and concern for others have contributed to the strength of the Academy.

She is a young woman who embodies the qualities of sound character, citizenship and passion that our community values. Every activity and endeavor into which she has ventured has produced impressive results.

In the classroom, her ability and poise resound. She is a dedicated and engaged scholar whose intelligent and articulate contributions invariably advances the collective dialogue. She is an accomplished visual artist possessing strong technical skills. She provides strong leadership in her role as hockey captain and has helped to elevate the quality of the program. Her work as a dormitory proctor has been highly effective where she has functioned as a valuable liaison between students and faculty. A wonderful sense of humor and an amiable personality complete the package.

From Westford Massachusetts the recipient of this special prize is:

Jennifer Marie Arno

His teachers praise him as an artist who constantly pushes the boundaries and challenges an individual's perception. His portfolio contains an impressive collection of both realistic and abstract compositions. His creativity and talent are also highly evident in the computer art medium.

He earned the well-deserved reputation as the resident showstopper in our musical productions of *Oklahoma*, *How to Succeed in Business without Really Trying* and *Pippin*. He has been one of the pillars of our choral groups. He possesses an encyclopedic knowledge of the history of GDA which he is helping to incorporate into an informational brochure for the Academy. He focuses on the task at hand with determination, precision and honest effort.

The Governor Dummer Academy has benefited from this enthusiastic contributor to our community. This special prize is awarded to:

Tyler O'Neill Collins

Her path to campus is literally the shortest among our graduates. She is a good neighbor who readily offers help in times of need or circumstances as evidenced by her work as a tour guide, Red Key member, Flip leader and Special Olympics volunteer. She is a talented student as well as infusing her challenging classes with enthusiasm, diligence and effort. Perhaps the thought that has been her work on the Discipline Committee and with the Anti-defamation League that best characterizes our good neighbor for she is not afraid to protect the dissension of her peers to protect and nourish the health of our community.

From a stone's throw away in Byfield, Massachusetts, the recipient of a special prize is:

SINCE 1854...INVESTING IN OUR COMMUNITY

We

care about our community. Community is important. As individuals, we all want the place where we live and work to be the best it can be.

As a financial institution serving the citizens and businesses of this area, we feel the same way. We tailor our services to the needs of people like you, who live in the area. And, we invest your dollars primarily in your community, not in questionable distant ventures.

Besides our obvious business functions, we also serve the community through financial assistance and direct volunteer service to charitable, cultural, civic and other community groups and services. Our employees, officers and directors often give many hours of volunteer time to these activities because they care about their community, just as you do, and want to give something back.

So, as you can see, our caring for, and contributions to, this community go well beyond the day-to-day transactions that take place within our offices.

Editor's Closing

Wow! When we first embarked on our road trip (literally) to Staples in July 2002 for office supplies, we had little idea what the next year had in store for us. On that hot summer day, we came up with our road trip/ journey theme, purchased enough office supplies to last for at least the next couple of years and picked out our famous purple and blue office chairs (which quickly became the envy of anyone who visited us in lower Parsors).

Now a year later, we prepare to pass the torch, and relinquish our titles as Milestone editors. After spending countless hours in the office designing pages, on the fields taking pictures, or running Tuesday night meetings with our dedicated staff, we've become attached to our basement office, our colored Sharpies, and the excitement of designing a book that will serve as a tangible record of the 2002-2003 school year.

We hope you have as much fun looking at your yearbook as we did creating it. The hard work and dedication of a lot of people went into its construction. This book will hopefully serve as a record on which to look back upon again and again and spark memories of your high school years long after they have passed.

Special thanks to Mr. Oxtor, an incredible advisor who's unending patience and creativity allowed us to get through the year. To Stirling and Alex, best of luck next year- you will both do great. When you are having troubles, spitting sunflower seeds and rolling around the office in the chairs never ceases to help break up a creative block...

Thanks to everyone who helped us over the last four years. Your friendships have made our GDA experiences.

What a ride it's been!!

Dan Winds
